Education

- 1999 **Ph.D.**, *University of Colorado*, Boulder, Colorado, Behavior Genetics.
1997 **M.A.**, *University of Colorado*, Boulder, Colorado, Behavior Genetics.
1993 **B.A.**, *University of Texas*, Austin, Texas, Psychology.

Employment

- 1999–present **Research Associate**, *Institute for Behavioral Genetics*, University of Colorado.
Duties involve performing original and collaborative research on topics in behavioral genetics, including drug abuse, delinquency, BMI, statistical methods in genetics, and other topics.
- 1999–present **System Administrator**, *Institute for Behavioral Genetics*, University of Colorado.
Duties involve maintaining a scientific computing and general use computing environment.
- 1999–present **Faculty**, *International Workshop on Methodology of Twin and Family Studies*.
Duties involve constructing a classroom computing system for teaching of statistical software.
- 2000–2003 **Computing Consultant**, *Wellcome Trust Centre for Human Genetics*, University of Oxford, Oxford, UK.
Duties involved constructing and maintaining a computing cluster for statistical genetic applications.
- 1993–1999 **Graduate Student**, *Institute for Behavioral Genetics*, University of Colorado.
- 1994–1998 **Computing Consultant**, *International Workshop on Methodology of Twin and Family Studies*.
Duties involved constructing a classroom computing system for teaching of statistical software.

Doctoral Dissertation

Title	<i>Life Events and Depressed Mood</i>
Supervisor	John Hewitt
Description	Longitudinal twin pair data was used to investigate the causal relationship between life events and depressed mood in adolescents.
