WORK IN PROGRESS

Publications

Shrikant, N. & Williamson, F. (to be submitted May 2024) *Race talk in institutional settings: Language and social interaction perspectives*. Proposal accepted; under contract. Series on “Language as Social Action” (H. Giles, Ed.). Peter Lang.

Much of last year was spent on data gathering, translation, and transcription. I conducted focus groups for Project Worthmore, a refugee-serving non-profit organization, each with a different linguistic community (Dari, Kinyarwanda, Swahili, Karen). I also collected a corpus of misinformation videos from NSF grant community partners and worked on having them transcribed and translated from Chinese, Hindi, Tagalog, and Vietnamese. This resulted in a lot of logistical labor – recruiting focus group participants, coordinating with non-profits to send me misinformation videos, finding translators for the above listed languages, training translators in transcription, managing translators and personnel turnover, applying for grants to fund this work, etc.
