Objective

To develop a career in emissions inventories, climate, air pollution and data science.

Education

Post-Doc in of Atmospheric Sciences, GML/NOAA and CIRES/CU 01/03/20122 – present

- CH₄ posteriori emissions over North America during COVID-19 period.
- HYSPLIT workshop. Development of R package to read and process NOAA GML ObsPack. <https://ibarraespinosa.github.io/robspack/>.

Post-Doc in of Atmospheric Sciences, Nuclear and Energy Research Institute 01/08/2021 – 01/02/2022

- Participation in the METROCLIMA project to estimate priori and posteriori CO₂ fluxes.

Post-Doc in of Atmospheric Sciences, Chinese Academy of Sciences 01/01/2019 – 15/07/2019

- Developing comprehensive vehicle emissions inventories for China.

Post-Doc in Atmospheric Sciences, Universidade de São Paulo (USP) 01/11/2017 – 30/07/2021

- Evaluation of environmental anc chemical policies from PETROBRAS on emissions inventories and air quality models. It was used VEIN with WRF-Chem.

PhD in Atmospheric Sciences, Universidade de São Paulo (USP) 01/09/2013 – 30/10/2017

- PhD thesis: Air pollution modeling in São Paulo using bottom-up vehicular emissions inventories <https://teses.usp.br/teses/disponiveis/14/14133/tde-29052018-140319/en.php>.
- Developed the R package VEIN (Vehicular Emissions Inventories) <https://CRAN.R-project.org/package=vein>. VEIN is now used in many countries more than 20000 direct downloads <https://github.com/atmoschem/vein> with Fortran and OpenMP.
- Developed the R package EEXPORT <https://CRAN.R-project.org/package=elexport>, with more than 17000 direct downloads <https://github.com/atmoschem/eexports>.
- Won the Chilean Government's "Becas Chile" Scholarship
- Generated emission inputs and run WRF Chem model.
- Mentored by air pollution and meteorology expert Prof. Rita Ynoue and co-mentored by Prof. María de Fátima Andrade (Universidade de São Paulo), Prof. Edzer Pebesma (University of Munster) and Prof. Mauricio Osse (Universidad Santa María).
- Internship TRL Transport Research Lab UK as emissions analyst.
- Course: Numerical Modeling of the Atmosphere: GCM Design and Applications by Carlos Mechoso (UCLA) at IAG/USP.
- Organized internal and external meetings, workshops, and seminars at University of São Paulo.

01/03/2010 – 01/12/2011

Masters in Environmental Planning and Management from the Universidad de Chile, Santiago

- Won the Chilean Government's "Centro Nacional del Medio Ambiente" Scholarship.
- While working as a Emissions Inventories research analyst, graduated with a Masters from the University of Chile
- Master thesis: Identification of Improvements into estimation of vehicular emissions in Santiago, Chile. <http://mgpa.forestaluchile.cl/Tesis/Ibarra%20Sergio.pdf>

15/09/2003 – 22/06/2007

Bachelor in Environmental Science from Universidad Tecnológica Metropolitana, Santiago, Chile

- Majored in Environmental Engineering and Risk Prevention
- Bachelor thesis: "Effects of air pollution on Acute Respiratory Infections of the Emergency Care Service (SAPU) Pudahuel" La Estrella "(2007).
- Diploma in English (2005-2006) and Diploma in Leadership (2005-2006)

Experience

Centro Nacional del Medio Ambiente, Santiago, Chile 01/09/2007 – 30/08/2013

- Worked for five years conducting emissions inventory projects and writing technical reports for Ministry of Environment and Ministry of Energy.
- Estimated emissions at airports in Chile using Emissions Dispersion Modeling Software EDMS.
- Assessed and evaluated European Emission Inventories (CLRTAP), United States (NEI), Australia (NPI), and Japan (JPRTR). Completed literature reviews on international GHG policies and road models (e.g. COPERT, HBEFA)
- Completed GHG emissions inventory projects for the Ministry of Energy, Chile, RM 2010, the Andacollo Municipality 2011, and the Ministry of Environment, Chile, RM 2010.

Skills & Computational Language

- 2022 hysplit workshop (NOAA)
- R (advanced), Fortran (medium), Python (basic), Bash (basic), Latex (medium), Markdown (advanced).
- WRF-Chem, QGIS, VEIN, EEXPORT. Author of 10 R packages.
- Several basic and advanced R and Python courses on Datacamp. Completed:
 - Spatial Analysis with sf and raster in R, Writing Efficient R Code, Python Data Science Toolbox (Part 1), Python Data Science Toolbox (Part 2)
- Currently studying modern Fortran and Fortran Package Manager (fpm).
- COVID-19 Contact Tracing, Johns Hopkins University on coursera.org
- Virtual PAPILA Summer School. Sponsors: The EU PAPILA Project, MAP-AQ (IGAC and WMO) The University of Chile in Santiago and the Max Planck Institute for Meteorology in Hamburg

Languages

Portuguese (fluent); English (advanced); Spanish (fluent). Lived 8 years in Brazil and completed all PhD courses/exams through Portuguese. Advanced English course at the University of Alabama, Tuscaloosa, USA (2007). TOEIC (2007): Oral comprehension 445. Written comprehension 305. TOEFL (2015): Results: 553 in (2007) and 580

Teaching

1. YOUTUBE CHANNEL https://www.youtube.com/channel/UC2oYaS9mpnIDk8w55O8_bTg
2. Course VEIN on the Colombian Conference on Air Quality (CASAP VIII), 5 hours. <https://www.casap.com.co/en/pre-congress-courses/>
3. 27-02-2020: Universidade de São Paulo (USP). Curso sobre VEIN. <https://www.iag.usp.br/atmosfericas/vein>.
4. 16-08-2018: Universidade de São Paulo (USP). Curso de R para meteorología IAG/USP. <https://iagdevs.github.io/cursoR/>.
5. 19-03-2018: Universidade Federal de São Paulo (UNIFESP). Environmental Engineering- ‘Controle de Poluição Atmosférica’. Class: ‘Estimativas de fontes fixas/móveis e inventários’. Professor Dr. Gylrene Silva.
6. 27-11-2017 to 1-12-2017 ‘O modelo VEIN’ in Departamento de Engenharia Sanitária e Ambiental (DESA), Universidade Federal de Minas Gerais, Grupo de Poluição do Ar e Meteorologia Aplicada (GPAMA), Prof. Dr. Taciana Albuquerque.

Awards

- Best PhD 2018 in Atmospheric Sciences. Destaque Doutorado Meteorologia Sergio Alejandro Ibarra Espinosa. Departamento de Ciências Atmosféricas Instituto de Astronomia, Geofísica e Ciências Atmosféricas, Universidade de São Paulo
- PhD Scholarship from Chilean Government: “Becas Chile”
- Master Scholarship from “Centro Nacional del Medio Ambiente” Scholarship.
- Travel grant from organization to the 2017 Japan Geoscience Union (JPGU) meeting, Chiba, Japan.
- Travel grant from IAG/USP to European Geosciences Union General Assembly Vienna | Austria 2018.
- Travel Grant from organization to 11th International Conference on Southern Hemisphere Meteorology and

Oceanography, 2015, Santiago.

- Travel grant from organization 2018 Joint 14th iCACGP Quadrennial Symposium IGAC.

Extension

- Organizer in program Pathways to Steam of CIRS Colorado University. This program consists in introducing science to CITRUS community colleague students from California. The program 20023 considers visits to NOAA, CU, and applied research and measurements.
- Classes for elderly people at the Universidade de Sao Paulo,
 1. 24/06/2020 - 13:00. “Meteorologia para a Terceira Idade: Como meu carro afeta a qualidade do ar que respiramos?” <https://www.iag.usp.br/evento/meteorologia-terceira-idade-ibarra-como-meu-carro-afeta-qualidade-ar>
 2. 28/09/2016 - 13:00. “Associação entre COVID-19, fatores ambientais e distanciamento social (USP 60+)” <https://www.iag.usp.br/evento/usp60-ibarra-covid-19-fatores-ambientais>
 3. 29/09/2021 - 13:00. “Efeitos diretos e indiretos dos aerossóis na meteorologia e nas concentrações de poluentes atmosféricos durante os períodos de seca e chuva no Sudeste do Brasil (USP 60+)” <https://www.iag.usp.br/evento/usp60-ibarra-efeitos-aerossois-meteorologia-poluentes-seca-chuva>
- Participation representing Departamento de Ciências Atmosféricas at the Virada Científica, Universidade de Sao Paulo.
- Talk for IAG Science Day,
 1. 2016: Universidade de Sao Paulo: “Que, como e quanta poluição do ar gera a nossa cidade?” <https://www.iag.usp.br/evento/iag-science-day>
 2. 2018: Universidade de Sao Paulo: “R packages for air pollution studies” <https://www.iag.usp.br/evento/scienceday2018>
 3. 2019: Universidade de Sao Paulo: “Towards a real-time vehicular emissions inventory” <https://www.iag.usp.br/evento/scienceday-2019>
 4. 2020: Universidade de Sao Paulo: “How the COVID-19 restrictions impacted vehicular emissions and air quality in São Paulo” <https://www.iag.usp.br/evento/scienceday-2020>
 5. 2021: Universidade de Sao Paulo: “Comprehensive emissions inventory for Brasil with monthly resolution, 1990-2020” <https://www.iag.usp.br/scienceday>

Selected Invited Talks

- Harvard University, invited by Dr. Francesca Dominici: “Association between COVID-19 and residential mobility index in Sao Paulo, Brazil
- Universidad Nacional Tecnológica de Lima Sur invited by Dr. Odon Sanchez: “VEIN v0.9: an R package for bottom-up vehicular emissions inventories”
- George Mason University invited by Dr. Daniel Tong: “Air pollution modelling with VEIN and other r-packages.”
- CETESB invited by Marcelo Bales ‘Modelagem da poluição atmosférica em São Paulo utilizando inventários de emissões veiculares bottom-up’ <https://cetesb.sp.gov.br/escolasuperior/palestra-modelagem-da-poluicao-atmosferica-em-sao-paulo-utilizando-inventarios-de-emissoes-veiculares-bottom-up/>.
- Ibarra-Espinosa, S. (2023-6-27) Modelo de inventario de emisiones vehiculares Universidad Nacional Tecnologica de Lima Sur. Lima, Peru. <https://www.youtube.com/watch?v=vT8OX8ewCTw>
