

DR. JESSICA M. FINLAY

Department of Geography and Institute of Behavioral Science
University of Colorado Boulder

Email: jessica.finlay@colorado.edu / Phone: 1-303-735-0110 / Website: www.jessicafinlay.com

EDUCATION AND EXPERIENCE

- 2023-Present **Assistant Professor**
University of Colorado Boulder, CO, USA
Department of Geography
Institute of Behavioral Science
NIH R00 Fellow; IBS Faculty Fellow; CUPC seed grant awardee; LCC pilot grant awardee
- 2022-2023 **Research Investigator**
University of Michigan, Ann Arbor, MI, USA
Social Environment and Health Program, Institute for Social Research
Center for Social Epidemiology and Population Health, School of Public Health
NIH K99 Fellow; Michigan Alzheimer's Disease Research Center Early Career Fellow
- 2018-2022 **Postdoctoral Research Fellow**
University of Michigan, Ann Arbor, MI, USA
Social Environment and Health Program, Institute for Social Research
Center for Social Epidemiology and Population Health, School of Public Health
NIH F32 Postdoctoral Fellow; MICHR Postdoctoral Translational Scholar Program Fellow; Outstanding Postdoctoral Fellow Award
- 2014-2018 **Doctor of Philosophy (June 2018)**
University of Minnesota. Minneapolis, MN, USA
Geography Major: Department of Geography, Environment, and Society
Gerontology Minor: Center on Aging, School of Public Health
Interdisciplinary Doctoral Fellow; Alfred Bader Fellow; PEO Scholar; TA of the Year
- 2016 **Visiting Research Scholar**
Dartmouth College. Hanover, NH, USA
Department of Geography
- 2011-2013 **Master of Arts (December 2013)**
University of Minnesota. Minneapolis, MN, USA
Department of Geography, Environment, and Society
Graduate Fellow; Kordell Scholar; Peter Gould Master's Paper Award Winner
- 2006-2011 **Bachelor of Arts Honors (May 2010) and Bachelor of Education (May 2011)**
Queen's University. Kingston, ON, Canada
Department of Geography and Faculty of Education (Concurrent Program)
Medalist in Geography; Canadian Association of Geographers Prize Winner

RESEARCH AND TEACHING AREAS

Neighborhoods, communities, and health	Health and medical geography
Aging and the life course	Global public health
Socio-geographic determinants of health	Social epidemiology and population health
Health disparities and inequity	Urban and human geography
Cognition, Alzheimer's disease and related dementias	Qualitative, geospatial, and mixed methods

PUBLICATIONS

Note: * Indicates an early-career mentee

First-Authored Publications

GRANTS, FELLOWSHIPS, HONORS, AND AWARDS

Grants and Fellowships:

- | | |
|-----------|---|
| 2023-2026 | National Institute on Aging R00 Award (NIH/NIA R00AG075152, \$1,014,840) Primary Investigator: "Aging in Place since the COVID-19 Pandemic Onset: A Study of Neighborhoods and Cognitive Health Among Older Americans." |
| 2023-2024 | University of Minnesota Life Course Center for the Demography and Economics of Aging Pilot Grant (NIH/NIA P30AG066613, \$36,133) Co-Primary Investigator: "Place-Based Determinants of Cognitive Aging Across the Life Course." |
| 2023-2024 | University of Colorado Population Center Seed Grant (NIH/NICHHD P2CHD066613, \$20,000) Co-Primary Investigator: "Toxic homes? A mixed-methods study of Marshall Fire health impacts." |
| 2023-2027 | National Institute on Aging (NIH/NIA RF1 AG083037, \$3,186,689) Co-Investigator: "Developing and evaluating new measures of family availability to provide care to people with dementia." |

- 2022-2027 National Institute on Aging (NIH/NIA R01 AG080491, \$2,995,425) Co-Investigator: "Implications of residential location in midlife disability and cognitive functioning among the poor vs. rich: within the US and cross-country comparisons."
- 2022-2024 National Institute on Aging K99 Pathway to Independence Award (NIH/NIA 1K99AG075152-01, \$1,014,840) Primary Investigator: "Aging in Place Before and After the COVID-19 Pandemic Onset: A Study of Neighborhoods and Cognitive Health Among Older Americans."
- 2022-2027 National Institute of Nursing Research (NIH/NINR U01NR020556) Co-Investigator: "A National Neighborhood Data Resource to Understand Inequities in the Health and Socioeconomic Impacts of COVID-19 in the United States."
- 2021-2023 Michigan Alzheimer's Disease Research Center Early Career Investigator Mentorship Program (NIH/NIA P30AG072931, Berger Endowment G102865/321033, \$25,000).
- 2020-2022 National Institute on Aging Ruth L. Kirschstein National Research Service Award Individual Postdoctoral Fellowship (NIH/NIA F32 AG064815-01, \$131,836): "ENHANCE: Developing a Clinical Geography Tool to Intervene in Cognitive Decline through Neighborhood Design."
- 2019-2022 National Institutes of Health Small Business Innovation Research Grant (R44AG063683-01, \$1,612,024): "A Mobile Informatics Solution to Aid in Memory" Co-Investigator.
- 2019-2021 Michigan Institute for Clinical & Health Research Postdoctoral Translational Scholar Program Fellowship (NIH UL1 TR002240-02, \$85,000).
- 2018-2020 University of Michigan Institute for Social Research Social Environment and Health Program Postdoctoral Research Fellowship (\$115,000).
- 2018-2020 University of Wisconsin-Madison Center for Demography of Health and Aging National Research Service Award (funded by the National Institute on Aging) Postdoctoral Research Fellowship (\$100,000). Declined.
- 2017-2018 University of Minnesota [UMN] Doctoral Dissertation Fellowship (\$25,000).
- 2016-2017 National Science Foundation Geography and Spatial Sciences Doctoral Dissertation Research Improvement Grant (No. 1558577): Awarded to PI Susan Craddock and Co-PI Jessica Finlay (\$15,990).
- 2015-2016 Alfred Bader Fellowship: Awarded for one year of study and research which contributes to the advancement of knowledge and to society (\$13,000).
- 2015-2016 Department of Geography, Environment & Society Alumni, Faculty and Friends Graduate Fellowship (\$3,000).
- 2015-2016 UMN Interdisciplinary Doctoral Fellowship (\$22,500).
- 2011 UMN Department of Geography Summer Research Grant (\$4,000).
- 2011-2012 UMN Graduate School Fellowship (\$22,500).

Honors and Awards:

- 2023 Mather Institute Innovative Research on Aging Silver Award (\$1,000).
- 2023 NIH Matilda White Riley Behavioral and Social Science Honors: Early-Stage Investigator Paper Competition Awardee.

- 2023 National Alzheimer's Coordinating Center Rising Star Award (\$1,000).
- 2022 Gerontological Society of America Carroll L. Estes Rising Star Award (\$300).
- 2021 University of Michigan Postdoctoral Association Conference Award (\$500).
- 2021 Alzheimer's Association Interdisciplinary Summer Research Institute scholar.
- 2020 University of Michigan Outstanding Postdoctoral Fellow Award (\$1,000): Awarded for excellence in research, teaching, mentoring, service, and leadership.
- 2016 Minnesota Gerontological Society Gerald Bloedow Scholarship (\$1,000): Awarded to outstanding students bridging academics, research, and practice in the field of aging.
- 2016 Philanthropic Educational Organization Scholar Award (\$15,000): Awarded to female doctoral students to recognize and encourage excellence in higher education.
- 2012-2016 UMN College of Liberal Arts Research/Travel Award: 2016, 2015, 2014, 2013, 2012 (\$3,000).
- 2016 Department of Geography, Environment, & Society Graduate Student Publication of the Year, "Therapeutic landscapes and wellbeing in later life" (\$500).
- 2014 American Association of Geographers [AAG] Health & Medical Geography Specialty Group Peter Gould Master's Paper Award (\$100).
- 2014 AAG Health & Medical Geography Specialty Group Student Travel Award (\$200).
- 2015 UMN Council of Graduate Students Travel Award (\$1,200).
- 2014 UMN Department of Geography TA of the Year Award (\$250).
- 2014 UMN President's Student Leadership and Service Award.
- 2013 UMN Joseph-Kordell Scholarship: Awarded for demonstrating a commitment to working in the field of aging and bettering the lives of seniors (\$4,000).
- 2010 Canadian Association of Geographers Prize: Awarded to a graduating student who has the most outstanding record and achievements in geography (\$500).
- 2010 Queen's University Medal in Geography: Awarded to the student who attains the highest academic average of all graduating geography students.
- 2010 Queen's University Graduating Athlete Award and Academic All-Canadian.
- 2006-2010 Dean's Honour List 2007-2010 (with Distinction 2008 & 2009).
- 2010 Rhodes Scholarship alternate.
- 2009 Queen's Appeal Undergraduate Scholarship: Awarded in recognition of outstanding academic standing (\$2,500).
- 2009 The F.W. Minkler Award: Awarded to an individual whose integrity, scholarship and contribution to Queen's University is outstanding (\$2,500).
- 2008 Dean's Special Award: Awarded for outstanding academic achievement (\$1,000).
- 2008 James and Mary Young Allardyce Brough Prize: Awarded to the second-year student in a BA program who achieves the highest average in Geography (\$1,200).

- 2006 & 2007 Queen's University Principal's Scholarship: Awarded in recognition of achieving an outstanding academic average (\$10,000).
- 2006 Canadian National Millennium Excellence Award: Awarded for significant community involvement, leadership, innovation, and outstanding academic achievement (\$4,000).
- 2006 Miller Thomson Foundation Scholarship: Awarded for academic achievement and significant contributions to community service programs (\$1,000).

RESEARCH EXPERIENCE

- 2023-Present **Marshall Fire Community Health Co-Primary Investigator:** Conduct NICHD-funded qualitative and mixed-methods research to investigate physical, mental, social, and cognitive health impacts of the Marshall Fire in Boulder County. Tasks include research design, interview data collection, data analysis, budget management, manuscript development, collaboration facilitation, supervision and mentorship of research assistants, and public communication.
- 2022-Present **National Neighborhood Data Archive Co-Investigator:** Identify key neighborhood metrics to curate and disseminate timely geospatial datasets publicly. Longitudinal data includes physical, social, economic, and environmental characteristics across the United States (e.g., built infrastructure, services and amenities, residential segregation, environmental hazards, broadband internet access, healthcare availability) at multiple spatial scales. Support data linkages to existing survey data, cohort studies, and electronic health records at various levels of geography.
- 2020-Present **COVID-19 Coping Study Co-Primary Investigator:** Conduct longitudinal mixed-methods research investigating the physical, mental, social, and cognitive health and well-being among older Americans since the COVID-19 pandemic onset. Tasks include research design, lead survey and interview data collection, qualitative and mixed-methods analyses, grant writing, budget management, manuscript development, collaboration facilitation, supervision and mentorship of research assistants, media contact, website management, and public communication.
- 2018-Present **Cognability: Neighborhood Contexts of Cognitive Aging Primary Investigator:** Conduct NIH-funded mixed-methods research investigating built, social, and natural environmental sources of risk and resiliency for cognitive health among diverse aging Americans. Lead qualitative analyses to inform collaborative quantitative investigation in national aging cohort studies. Facilitate a community advisory board to develop a public website that translates the new concept of 'Cognability' (a measure of how supportive an area is to cognitive health among aging residents) into an accessible mapping tool. Tasks include research design, qualitative data collection and analyses, co-lead mixed-methods analyses, grant writing, budget management, manuscript development, community advisory board facilitation, supervision and mentorship of research assistants, media contact, website management, and public communication.
- 2018-2023 **Social Environment and Health Neighborhoods and Cognition Research Team:** This R01-funded interdisciplinary team examines the moderating role of neighborhood built and social environments on trajectories of cognitive function among participants in the Reasons for Geographic and Racial Differences in Stroke (REGARDS) study, a national longitudinal cohort study of over 30,000 Black and white individuals age 45+ ongoing

since 2003. We are also developing public datasets on the National Neighborhood Data Archive for researchers to investigate health-place research questions. Role includes geospatial analysis, manuscript development, data curation supervision, and leadership in mixed-methods project extensions.

- 2017-2021 **UMN Families and LTC Projects Team Member:** Collaborated with faculty and graduate students in Nursing, Gerontology, Epidemiology, Public Health, Psychology, Social Work, and Medicine. Involved with NIH-funded mixed-methods research to investigate experiences of older adults and caregivers on topics such as remote activity monitoring, support for people with Alzheimer’s disease and related dementias, and adult day service programs. Activities included qualitative and quantitative data analysis, manuscript development, and professional development.
- 2015-2018 **“Aging in the Right Place” Research Study Primary Investigator:** Conducted mixed-methods dissertation research on aging in the Minneapolis metropolitan area. Tasks included supervision and mentorship of research assistants, grant writing, budget management, quantitative and qualitative analysis, manuscript development, media contact, knowledge dissemination, and public communication.
- 2015-2017 **“Evidence in Aging” Research Project Co-Investigator:** Collaborated with faculty and graduate student members of the Aging Studies Interdisciplinary Graduate Group to investigate diverse professional perspectives on evidence in aging. Involved in research design, structured interviews, statistical and qualitative interview data analysis, manuscript development, and conference presentations.
- 2013-2014 **Centre for Hip Health and Mobility “Walk the Talk” Research Team Member:** Collaborated with an interdisciplinary team to investigate links between the built environment, mobility, and wellbeing in low-income dwellings for older adults. Conducted and analyzed physical/cognitive tests and qualitative interviews with study participants, developed thematic frameworks and prepared manuscripts.
- 2012-2013 **City of Minneapolis Department of Health and Family Support, Upper Mississippi Riverfront Development Health Impact Assessment [HIA] Research Intern:** Assisted in the design and implementation of the HIA to profile existing conditions of the study region and evaluate potential health effects of proposed development. Contributed to written reports and stakeholder meetings.
- 2011-2015 **Neighborhood Health Source Community Volunteer:** Assisted in the planning and implementation of public health outreach and engagement programs for older adults. Recorded blood pressure, discussed health and nutrition, and assisted with low-impact fitness and fall prevention classes.
- 2010-2011 **Queen’s University Department of Geography Research Assistant:** Assisted in the design, administration, and analysis of surveys and focus groups.
- 2009-2010 **Queen’s University Department of Student Affairs, Research, and Assessment Student Researcher:** Conducted a study in coordination with undergraduate thesis examining sustainability programs within university residences and campus initiatives.

TEACHING AND MENTORSHIP EXPERIENCE

- 2023-Present **University of Colorado Boulder Geography Lecturer**
2024 GEOG 3692 Global Public Health (175 undergraduate students)
2023 GEOG 3692 Global Public Health (175 undergraduate students)
- 2023-Present **Undergraduate and Graduate Advisor and Committee Member:** Promote junior scholar mentorship, training, and professional development as an undergraduate and graduate advisor and committee member. Develop individual training plans and deliverables, manage regular collaborative meetings, administer comprehensive oral and written exams, support and supervise dissertation activities (e.g., data collection, analysis, knowledge translation, publications), advise and support future employment applications.
- University of Colorado Boulder**
- 2023-Present: Xiaoling Chen (doctoral committee member, Geography)
 - 2023-Present: Matthew Miller (doctoral committee member, Geography)
 - 2023-Present: Mallory Sagehorn (primary advisor and dissertation committee chair, Geography)
- External universities**
- 2023-Present: Francesca Mucciaccio (doctoral committee external member, Dornsife School of Public Health, Drexel University)
 - 2023-Present: Leiha Edmonds (doctoral committee external member, Department of Geography, University of North Carolina Chapel Hill)
 - 2023-Present: Clara Scher (doctoral committee external member, Rutgers University School of Social Work)
- 2023-Present: **Marshall Fire Community Health Study Supervisor and Mentor:** Promote junior scholar mentorship, training, and professional development. Hire graduate research assistants. Develop individual training plans and deliverables, manage regular collaborative meetings, supervise project activities (e.g., data collection, analysis, knowledge translation, publications).
- 2023-Present: Matthew Miller (doctoral student), Layces Atao (undergraduate), Emma Miller (undergraduate)
- 2022-Present: **Cognability Study Supervisor and Mentor:** Promote junior scholar mentorship, training, and professional development. Hire graduate research assistants. Develop individual training plans and deliverables, manage regular collaborative meetings, supervise project activities (e.g., data collection, analysis, knowledge translation, publications).
- 2023-Present: Desiree Alvarez-McNelis (PhD candidate), Grace Savard (MPH)
2022-Present: Longrong Pan (PhD candidate)
- 2020-Present **COVID-19 Coping Study Supervisor and Mentor:** Promote junior scholar mentorship, training, and professional development. Hire graduate research assistants. Develop individual training plans and deliverables, manage regular collaborative meetings, supervise project activities (e.g., data collection, analysis, knowledge translation, publications).

- 2021 Viveka Guzman (PhD candidate), Gabriella Meltzer (PhD)
 2020 Brendan O’Shea (MPH), Jasdeep Kler (MPH), Marisa Eastman (MPH), Yamani Vinson (MPH), Carly Joseph (Medical School student), Ami Sanghvi (Undergraduate)
- 2019-2023 **Social Environment and Health Projects Supervisor:** Promote junior scholar mentorship, training, and professional development. Hire graduate research assistants. Develop individual training plans, manage regular collaborative meetings, supervise project activities (e.g., data collection, analysis, publications, academic presentations).
 2022 Longrong Pan (doctoral candidate)
 2020 Huajun Zhou (MSc), Mao Li (doctoral candidate), Wenshan Yu (doctoral candidate)
 2019 Anam Khan (doctoral candidate), Dominique Sylvers (doctoral candidate)
- 2019-2020 **University of Michigan School of Public Health Lecturer:** Developed and presented lecture content, readings, and assessment for “Neighborhoods and the Environment” course section of an online Social Epidemiology master’s-level course.
- 2015-2017 **University of Minnesota Project Supervisor:** Promoted junior scholar mentorship, training, and development to engage in fieldwork, analysis and dissemination. Developed specific research assistant training plans; scheduled regular collaborative meetings; and supervised data collection, analysis and manuscript development.
 2017 *Project Assistant:* Wendy Chao (BS, St. Catherine)
 2016 *Research Assistants:* Joanna Khong (BA, University of Minnesota), Alec Trendera (BSc, University of Minnesota) and Jessa Hohnstein (BSc, University of Minnesota)
 2015 *Research Assistants:* John Bowman (MA, University of Minnesota), Naomi Klionsky (BA, Macalester College)
- 2012-2015 **University of Minnesota Lecturer and Teaching Assistant:** Facilitated and participated in course teaching activities, presented lectures. Developed marking schemes and graded a variety of assignments, research paper components, and exams.
 GEOG 3401 Geography of Environmental Systems and Global Change
 GEOG 3381 Population in an Interacting World
 GEOG 3371 Cities, Citizens, and Communities*
 GEOG 1403 Biogeography of the Global Garden**
 * Co-taught: Responsible for primary course instruction and evaluation
 **Served as 2013-2014 Head TA supervising 11 TA’s and 525 students
- 2012 **The Midwest Center for Life-Long Learning in Public Health, Concepts in Community Engagement Course Instructor:** Consulted regularly with students to develop goals and action plans to train others in public health community engagement.
- 2010-2011 **Queen’s University Department of Geography Teaching Assistant:** Developed innovative small-group activities to coordinate with course lecture material. Assisted in the design of evaluation and course instruction.
- 2006-2011 **Queen’s University Elementary Educator:** Taught primary-junior education (Grades 1-8) in conjunction with Concurrent Bachelor of Education degree. Completed teaching practicums in Ontario schools (Limestone School District) and internationally in El Salvador (international practicum).

Invited Teaching and Guest Lectures

- Qualitative, quantitative, and mixed! Oh my! An introductory workshop on mixed methods. Institute of Behavioral Science Professional Development Series. University of Colorado Boulder. November 2023.
- Cognability*: Investigating neighborhoods and brain health. Introduction to Health Geography. University of Connecticut. October 2023.
- Neighborhoods and health in later life: A very brief introduction. GEOG Freshman Seminar. University of Georgia. September 2023.
- Urban design for brain health? Landscape Architecture: Health by Design Class. University of Michigan. September 2023.
- Aging in the *right* place? Mixing methods to study neighborhoods and wellbeing in later life. SOCY 3201: Sociological Research Methods. University of Colorado Boulder. April 2023.
- Neighborhood contexts of cognitive health: Mixing methods to study aging in place. GEOG 5852. Health and Medical Geography. University of Colorado. Boulder, USA. November 2022.
- Neighborhood contexts of cognitive decline: A Mixed-Methods Study of Aging Americans. EPID 617 Social and Economic Determinants of Population Health. University of Michigan School of Public Health. Ann Arbor, USA. March 2021.

Can Neighborhood Social Infrastructure Modify Cognitive Function? A Mixed-Methods Study of Urban-Dwelling Aging Americans. Urban Health Class. Health Behavior & Health Education Division. University of Michigan School of Public Health. Ann Arbor, USA. September 2020.

Fast-Food for Thought: Retail Food Environments in Later Life. Healthy Cities Class. University of Michigan Urban and Regional Planning. Ann Arbor, USA. February 2020.

Neighborhoods and Health: Implications for Later Life. EPID 617 Social and Economic Determinants of Population Health. University of Michigan School of Public Health. Ann Arbor, USA. January 2020.

'Walk like a penguin': Older Minnesotans' experiences of (non)therapeutic white space. Healthy Cities class. University of Michigan Urban and Regional Planning. Ann Arbor, USA. March 2019.

Geographies of Aging. Population in an Interacting World. University of Minnesota Department of Geography, Environment, and Society. Minneapolis, USA. November 2016.

We Are All Temporarily Able-Bodied. Health and Medical Geography. University of Minnesota Department of Geography, Environment, and Society. Minneapolis, USA. April 2016.

Global Aging and Chronic Disease. Population in an Interacting World. University of Minnesota Department of Geography, Environment, and Society. Minneapolis, USA. November 2012.

Invited and Public Lectures

Finlay, J. Cognability: A mixed-methods approach to neighborhoods and cognitive health in later life. *University of Wisconsin-Madison School of Medicine and Public Health Rising Star presentation.* November 2023.

Finlay, J. Cognability: A mixed-methods approach to neighborhoods and cognitive health across the life course. Institute of Behavioral Science Speaker Series: CUPC Flash Talks. October 2023.

Finlay, J. Cognability: A mixed-methods approach to aging in place with dementia. *National Academies of Science, Engineering and Medicine Workshop on Aging in Place with Dementia.* September 2023. https://www.nationalacademies.org/event/40481_09-2023_aging-in-place-with-dementia-a-workshop
