

MARK HERNANDEZ PhD, PE

2/11/2024 LV

EDUCATION

Post-Doctoral	University of California at Berkeley , Environmental Engineering, Topic: Subsurface Bioremediation, Advisor: Lisa Alvarez-Cohen	1995
PhD	University of California at Berkeley , Environmental Engineering, Minors: Chemical Engineering and Microbiology, Advisor: David Jenkins	1992
MS	University of California at Berkeley , Environmental Engineering,	1988
BS <i>Cum Laude</i>	University of California at Berkeley , Civil Engineering,	1986

ACADEMIC, CONSULTING and LEADERSHIP EXPERIENCE

- 2021 – 23** **Scientific Advisory:** Global Biorisk Advisory Council (BGAC)
- 2019 - 23** **Salvador Juan Archuleta Endowed Chair** of Civil and Environmental Engineering.
- 2019 - 23** **Faculty Director**, University of Colorado-Colorado Mesa University joint program in Engineering
- 2009- 23** **Executive and Membership Committees, The Leadership Alliance**, one of a five-member executive board overseeing the policy and operations of this premier NGO, promoting diversity in graduate higher education.
- 2008/13** **Editor, Aerosol Science and Technology**, The Journal of the American Association for Aerosol Research, Taylor and Francis Publishers, New York,
- 1994 -** **Registered Professional Civil Engineer**, active technical consultant and expert witness for the commercial biological waste treatment and industrial hygiene sectors since 1994 [CA License # C 054989].
- 2002/13** **Director, The Colorado Diversity Initiative** *University of Colorado at Boulder*. As the only STEM faculty member who was a Principal Investigator of an AGEF grant (of 22 awarded nationwide), I was one of two directors of the Colorado Diversity Initiative. I conceived, designed and led this joint NIH NSF-funded program to integrate graduate students from socioeconomic groups that remain underrepresented in STEM.
- 1996 -** **Professor (Tenured 2002)**, *University of Colorado at Boulder*. Full professor and principal investigator leading an externally funded graduate research program in applied microbiology. Lecture instructor for courses on environmental engineering, thermodynamics, microbiology and toxicology for engineers.
- 1994/95** **Postdoctoral Researcher**, *University of California at Berkeley*. Lead independent research to apply quantitative microscopy and biochemical assays to evaluate bioremediation in solvent contaminated soils.
- 1989/94** **Civil Engineer**, *City and County of San Francisco*, Responsible to the Engineering Bureau for in-house process engineering and research projects for the City's main wastewater treatment facilities (part-time '89 - '92). Full-time member of the start-up team for the state-of-the-art Oceanside Water Pollution Control Plant ('92-'94).
- 1986/88** **Environmental Engineer**, *Oro Loma Sanitary District (OLSD)/CH2M Hill Inc.*, Oakland, CA. Served as liaison and staff engineer to CH2M Hill, Inc. for the District's master plan and expansion.

FELLOWSHIPS, HONORS, and AWARDS

The S. J. Archuleta Endowed Chair in Civil and Environmental Engineering, 2019
Great Minds in STEM Foundation, Hispanic Educator of the Year, 2012
President's Commendation for Advancing Diversity, University of Colorado System, 2008
University of Colorado, Dept. of Civil Engineering, Teaching Award, 2003
Association of Environmental Engineering and Science Professors, Advisor to Outstanding Doctoral Dissertation, 2001
University of Colorado, Dept. of Civil Engineering, Young Researcher Award, 2000
National Science Foundation, CAREER Award, 1997
Water Environment Federation, Robert Canham Award, 1992
National Science Foundation, Graduate Research Fellowship, 1989
University of California at Berkeley, Regents Graduate Fellowship, 1988

Major Extramural Grant Summary (at the University of Colorado since 1996):

	<u>PI</u>	<u>Co-PI</u>
NSF (including Career):	\$ 9.95 M	\$ 560 K
NIH	\$ 750 K	\$ 1.46 M
EPA	\$ 285 K	
DOD US ARMY	\$ 530 K	\$ 2.35 M
DARPA		\$ 750 K
CDC		\$ 2.25 M
Foundations Sloan, Gates, Tito Lindbergh, Ryan	\$ 1.75 M	\$ 575 K
State of Colorado DIA & CDPHE	\$ 5.85 M	\$ 35 K
Corporations Boeing / Intel/ Lysol Carrier / Clorox, Honeywell	\$ 2.43 M	\$ 235 K

NATIONAL ACADEMY SERVICE

Urbanization and Slums: New Transmission Pathways of Infectious Diseases in the Built Environment (2017/2018)

Standards for the Microbiology of the Built Environment (2016/2017)

Review of Environmental Risk Assessment for Expansion of Facilities for Experimentations with Airborne Agricultural Pathogens National Biocontainment Animal Facility: NBAF (2011/2012):

Review of Environmental Risk Assessment for Expansion of Facilities for Human Pathogens Research at the Army Medical Research Institute for Infectious Diseases: USAMRIID (2009)

INTELLECTUAL PROPERTY (US and PCT Patents with Graduate Students):

Hernandez, M., Justo Reinoso I. and Caicedo-Ramirez A. (2023) Compositions for Controlling Microbially Induced Concrete Corrosion. [US 2023/0072595](#) and [PCT UC2021/014387](#)

Hernandez, M., Bilgin, A.A. and Grubb D.G. *Sequestration of macronutrients from anaerobic wastewater treatment with iron and steelmaking residuals.* US Patent # **11,225,427** Issued January 2022, **PCT WO 16998 A1.**

Hernandez, M., Nieto-Caballero, M., Keady, P, High Fidelity Bioaerosol Capture Directly into Genomic Preservatives, **PCT/US18/67687**, Issued 2022 .

Hernandez, M. and Biesiada, E, Peroxide enhanced germicidal irradiation for the treatment of airborne and surface-associated contaminants. **WO 2022/ 272169 A1**, Issued 2023

Hernandez, M., Abu-Dalo, Khanna, G, and Quick, A. *Metal Removal System*, US Patent # **10,106,437**, Issued 2018

Hernandez, M., and Ling A., *pH directed Delivery of Heavy Metals for the in-situ Inhibition of Microbially Induced Concrete Corrosion.* **PCT WO 070196**, US-9924723-B2, Issued 2016

Hernandez, M. and Abu-Dalo, M. , *Removing Metals from Solutions Using Metal Binding Compounds and Sorbents Therefore*, US Patent # **7,361,279**, Issued 2008.

Principal Advisor to Graduate Students and Post-Doctoral Researchers (chronological order)

I have focused my mentoring on retaining graduate talent from socioeconomic groups that have been traditionally underrepresented in engineering education, or are otherwise disabled. Out of a total of 31 mentees, the pool of graduate students and post-doctoral fellows that I have formally mentored as a primary advisor includes women (65%), and underrepresented students (40%). Of these, 6 are tenured engineering faculty at the following institutions:

Yale, Cornell, Boston University, Ohio State, Jordan University of Science and Technology, Shanghai Pudong University

*Denotes student with physical disability; †Denotes student from a socioeconomic/ethnic group that is traditionally underrepresented in graduate sciences / engineering; ‡ Denotes first generation college student

†**Cecilia Pennarieta**, (*Private Engineering Practice*), MS Environmental Engineering, May 1998
Thesis Topic: Denitrification in Aquifers Contaminated with Secondary Effluent

†**Cyndee Gruden**, (*Dean, The University of New Hampshire*), PhD, Environmental Engineering, Dec 2000
Dissertation Topic: Fate and Toxicity of Aircraft Deicing Fluid Additives through Anaerobic Digestion

Jordan Peccia, (*Professor, Yale University*), PhD, Environmental Engineering, Dec 2000
Dissertation Topic: Stability and Photoreactivation of UV-Irradiated Bioaerosols

†**Patricia Fabian**, (*Associate Professor, Boston University*), MS Environmental Engineering, Dec 2000
Thesis Topic: Total and Culturable Bacteria and Fungi in Arid Region Flood-Damaged Residences

‡**Colonel Jeff Cornell**, (*Chief, Environmental Programs, USAF, The Pentagon (ret.)*), PhD Environmental Engineering, 2001
Dissertation Topic: Environmental Fate of Benzotriazole-Based Corrosion Inhibitors

Cristina Fonseca, (*Private Engineering Practice, Carrollo Engineers*) PhD Environmental Engineering, August 2002
Dissertation Topic: Factors affecting biofouling of water treatment membranes and in-situ biofilm detection

†**Lieutenant Colonel Ivette O'Brien**, (*Chief of Engineering, Iraq, USAF (ret.)*), PhD Environmental Engineering, Dec 2002
Dissertation Topic: Uncoupling Behavior of Benzotriazole-Based Corrosion Inhibitors under Anoxic Conditions

Muna Abu-Dalo, (*Professor, Jordan University of Science and Tech.*) PhD Environmental Engineering, May 2003
Dissertation Topic: Effects of Functional Substitutions on the Biodegradability of Benzotriazole Derivatives

Largus Angenent, (*Professor, Cornell University, Tuebingen, Germany*) Post-Doctoral Researcher, Tenure '00-03 Topic: Molecular Characterizations of Microbiological Agents Suspended in Aerosols

- Sarahann Dow, (*Private Engineering Practice, Brown and Caldwell*) PhD Environmental Engineering, Dec 2003
Dissertation Topic: Effect of water quality parameters on the ozone-inactivation of emerging pathogens
- ***Lisa Clarke**, (*Public Service: Colorado State Dept. of Public Health*) MS Environmental Engineering, May 2004
Thesis Topic: Biopolymer Characterization of the Organic Fractions of Airborne Particulate Matter
- Jianxin Li, (*Associate Professor, Shantou University, PR China*) Post-Doctoral Researcher, Tenure 2002-2004
Research Topic: Acoustic Monitoring of Biofilms on Operating Water Treatment Membranes
- †**Emily Evans**, (*Private Engineering Practice, Brown and Caldwell*) MS Environmental Engineering, August 2005
Thesis Topic: Acoustic Monitoring of Biofilms on Operating Water Treatment Membranes
- Zwien Yuan, PhD, (*Associate Professor, Shanghai University, PR China*), Post-Doctoral Research Tenure, 2005-2007,
Research Topic: Enhancing Heavy Metal Removal from Acidic Industrial Waste Streams
- Elmira Kujundzic, (*High School Chemistry Teacher*) PhD Environmental Engineering, August, 2005
Dissertation Topic: Effects of engineering controls on airborne fungal spores and microbial toxins
- †**Mari Rodriguez**, (*Senior Scientist, Danish Technical University*) PhD Environmental Engineering, Dec 2009
Dissertation Topic: Molecular Ecology of Bioaerosols and Partitioning Behavior from Aquatic Sources
- ***Svetlana Nevostrueva**, (*Lead Engineer, Intel Corporation*) PhD Environmental Engineering, Dec 2009
Dissertation Topic: Immobilization of Heavy Metals using GAC impregnated with benzotriazoles
- Elmira Kujundzic, (*High School Chemistry Teacher*) PhD, University of Colorado, Post-Doctoral Research Tenure, '06-10
Research Topic: Modeling and Acoustic Recognition of Biofouling Mechanisms
- Kevin McCabe PhD, (*Brewmaster, Full Sail Brewery*) Oregon Graduate Institute, Post-Doctoral Tenure, '07-12
Research Topic: Mechanisms of Electrostatic Inactivation of Microorganisms
- Alina Handorean PhD, (*Teaching Professor, Colorado School of Mines*) Washington University, Post-Doctoral Post-Doctoral Tenure, '09-13 Research Topic: Characterization of Biopolymers in Airborne Particulate Matter
- Benjamin Miller, MS, (*Private Engineering Practice, Black and Veach Engineering*) Environmental Engineering, 2013
Research Topic: Reuse of Sugar Cane Bagasse for the Biological Remediation of Acid Mine Drainage
- Alison Ling, PhD, (*Private Engineering Practice, Barr Engineers*) Environmental Engineering, Dec, 2013
Research Topic: Source Apportionment, Ecology and Inhibition of Microbially Induced Concrete Corrosion
- †**Akua Fordjour** PhD, MD, (*Private Medical Practice*) Brown University, Post-Doctoral Research Tenure, '10 –11
Research Topic: Effects of Magnetic Fields on Cellular Membrane Functions
- Bharath Prithiviraj, PhD, (*Senior Scientist, Reckitt Benckiser*) India Institute of Technology, Post-Doctoral Tenure, '11-13
Research Topic: Bioinformatics of Bioaerosols
- Jane Turner PhD, (*Civil Engineer, City of Longmont*) Environmental Engineering, August 2014
Research Topic: Characterization and Control of Bioaerosol Toxicology
- †**Odessa Gomez, PhD**, (*Chief Scientist, DetectionTek Corporation*) Environmental Engineering, Dec 2016
Research Topic: Effects of Natural and Engineered Weathering on Bioaerosols
- †**Joan Marcano, PhD**, (*Director's Post Doctoral Fellow, National Renewable Energy Lab*), Post-Doctoral Tenure, '16-17
Research Topic: Bioaerosol Exposure in Public Schools
- †**Alejandro Caicedo Ramirez**, (*Private Engineering Practice*) PhD, Environmental Engineering, May 2018
Research Topic: Upcycling Heavy Metals for the *in-situ* Control of Biogenic Concrete Corrosion
- †**Ismael Justo Reinoso**, PhD, (Jr. Scientist, Bath University), PhD, Civil Engineering, Dec 2018
Research Topic: Behavior of Novel Cement Formulations for Microbially Induced Corrosion Control

- †**Marina Nieto Caballero**, PhD, (Post-Doctoral Fellow, Colorado State University), Environmental Engineering, Aug 2021
Research Topic: High Fidelity Recovery of Airborne Microbial Genomic Materials
- Emmalee Joy Biesiada, PhD Candidate, Environmental Engineering, Anticipated Graduation, Dec 2022
Research Topic: Peroxide Enhanced Bioaerosol Disinfection for HVAC and Occupational Settings
- †**Nicollette Laroco**, PhD Candidate, Environmental Engineering (Fulbright Fellow), Anticipated Graduation, May 2022
Research Topic: Biogas purification with Activated Industrial By-Products
- Yun Lu, MS, Environmental Engineering, May, 2021
Research Topic: Characterization of Airborne Surface Active Agents in the Built Environment
- Sara Elizabeth Beck, PhD, (Assistant Professor, University of British Columbia), Visiting Scholar, 2020,
Research Topic: Effect of weak electromagnetic fields on microbiological system growth.
- †**Mariana Lopes**, PhD, (Assistant Professor, University of Massachusetts, Amherst), Post-Doctoral Tenure, Summer 2020
Research Topic: Survival of Coronavirus in HVAC filter media
- †**Eddie Fuques Villalba**, MS, Molecular Biology, 2020, Visiting Scholar, AY 2020
Research Topic: Occurrence and persistence of airborne mammalian viruses
- Sahithi Kandala, PhD (Post-Doctoral Fellow, IIT Hyderabad India), Co-advised with Electrical Engineering, May 2021
Research Topic: Effects of weak magnetic fields on (micro)biological systems
- Emily Antionette Kraus, PhD Environmental Engineering, Colorado School of Mines, Post-Doctoral Tenure, 2021-2025
Research Topic: Metagenomic characterizations of airborne microbe response to disinfectants
- Heather Runberg, PhD Chemistry, University of Denver, Post-Doctoral Tenure, 2022-2024
Research Topic: Characterization of Airborne Surfactant Pools in the Built Environment
- Erik Huynh, PhD Candidate, Environmental Engineering, Anticipated Graduation 2027
Research Topic: Optimization and Life Cycle Analysis of Steel Making Residuals for the Reclamation of Biogas
- Nasim Ildiri, PhD Candidate, Environmental Engineering, Anticipated Graduation 2027,
Research Topic: Energy and Exposure Reductions of Medium-Occupancy Buildings following Building Hygiene
- Tess Eidem, PhD, PhD Microbiology, University of Nebraska, Post-Doctoral Tenure, 2023-2025
Research Topic: Denaturing airborne allergens

Principal Advisor to Undergraduate Students for Research Experience and Independent Study

In addition to serving as a principal advisor to graduate students, I have, where appropriate, included undergraduate students as active participants in sponsored research projects. These students have been supported for laboratory appointments using supplements from an NSF CAREER award, an NSF REU site award, the University of Colorado's Undergraduate Research Opportunities Programs (UROP), as well as our Summer Multicultural Access to Research Training (SMART) program. I have focused undergraduate recruiting efforts on disabled students, and those from socioeconomic groups that have been traditionally underrepresented in engineering education. Undergraduates participating in my laboratory typically receive intensive analytical training, followed by a "stand-alone" project that supports a larger research effort. Of the undergraduates that have participated in sponsored research, ten have, or soon will be, co-authors on archival publications. Out of a total of 42 students, the pool of undergraduates that I have formally mentored as an internship advisor now includes women (78%), and underrepresented students (> 60%). Of these, more than half have gone on to complete a STEM graduate degree. *Denotes student with physical disability; †Denotes US citizen from a socioeconomic/ethnic group that is traditionally underrepresented in graduate sciences / engineering

SERVICE ACTIVITIES

In addition to serving as a principal advisor to more than 30 graduate students and post-doctoral researchers, I have served on more than 100 graduate students' research advisory/examination committees; these include students from Engineering, Psychology, and the University of Colorado Health Sciences Graduate School (Public Health).

Department of Civil, Environmental and Architectural Engineering, University of Colorado

Curriculum Committee, 2000 - 2014 Graduate Admissions Committee, 1997 – 2000, 2003 – 2005, 2017-2018
 Environmental Engineering Undergraduate Program Advisory Committee, 1998 - present
 Senior Faculty Search Committees 1999, 2001, 2005, 2006, 2009, 2014, 2017, 2018, 2019

College of Engineering and Applied Sciences, University of Colorado

High School Honors Outreach Program, Coordinator for Undergraduate Environmental Engineering Programs, 2001 - 2006
 College Committee on Bioengineering, 1999 - 2003 Dean's Strategic Planning Committee, 1999

National Science Foundation and American Association for Advancement of Science, Proposal Panel Review Member:

Engineering Directorate, Bioenvironmental Engineering Sciences and Environmental Technology (2003, 2005, 2007, 2104)
 Faculty CAREER Development Awards (1999, 2002, 2003, 2004, 2005, 2006, 2009)
 Small Business Innovation Grants (1998, 2004, 2009)
 Alliance for Graduate Education and the Professorate (2004, 2005, 2007)
 Presidential Mentoring Award (2005, 2006, 2008, 2011)
 Historically Black Colleges and Universities (2009, 2010, 2011)
 International Programs (2010 and 2011)

Peer Reviewer for Recent Publications in the Following Archival Journals:
