### **Teaching Experience**

More than thirty years of diverse experience in academic environments. Researched, designed and taught courses in African dance, singing, and drumming to undergraduate and graduate students from around the world. Lectured on the role of the performing arts in religion, history, rites of passage and other aspects of traditional African Cultures. Choreographed, coordinated and managed dance productions. Provided individual and group advising to undergraduate students on personal issues including career goals, academic performance, relationships, self-esteem and substance abuse.

### **Artistic Work/Performance Experience**

Accomplished performer conversant with singing, acting, dancing, drumming and modeling. I have many years of performance experience in numerous groups, contexts and countries. I enjoy the excitement and challenge of integrating music, dance and drama into a single, seamless whole. I especially enjoy productions that focus on collective creativity; productions in which the artists feel a shared responsibility and stake in the work. Production experience includes artistic direction, choreography, stage and tour management, lighting, costume, sound, and stagecraft.

### **Work With Youth, Children and K - 12**

In both educational and therapeutic settings my work focuses on the use of rhythm games, dance, song, and storytelling as avenues for personal and interpersonal development. In African societies, the arts are part of a child's upbringing. The arts, especially traditional African performing arts, emphasize relationships. It is the ability to relate to oneself, other people and the environment that so effectively supports integrated development in the child. In my work, I emphasize these arts not

so much in and of themselves, but in their capacity to stimulate a child's cognitive, emotional, and social development.
