CHRIS RAY, Ph.D.

Department of Ecology and Evolutionary Biology and Institute of Arctic and Alpine Research,

University of Colorado, Boulder, CO 80309-0450

and The Institute for Bird Populations, Point Reyes Station, CA 94956-1346

(303) 489-8863, cray@colorado.edu

Education

1997	Ph.D. in Population Biology, *University of California, Davis*
1991	M.S. in Biology, *University of California, San Diego*
1990	B.A. in Ecology, Behavior and Evolution, *University of California, San Diego*

Career employment

2015-Present	*Research Scientist, Institute for Bird Populations:* Hierarchical modeling of point count data on bird species in western national parks
2008-Present	*Research Associate, Institute for Arctic and Alpine Research, University of Colorado, Boulder:* Ecology of sub-surface habitat specialists
2014	*Research Associate, Museum Collections, University of Colorado, Boulder:* User interface development and research applications for several data archives
2008-2013	*Research Associate, Ecology and Evolutionary Biology, University of Colorado, Boulder:* Modeling the metacommunity dynamics of vernal pool plants
2008	*Instructor, Ecology and Evolutionary Biology, University of Colorado, Boulder:* Graduate seminar in population biology—modeling and data analysis
2002-2007	*Research Associate, Ecology and Evolutionary Biology, University of Colorado, Boulder:* Modeling the dynamics of plague in prairie dogs and alternate hosts
2001-2005	*Independent contractor, US Fish & Wildlife Service:* Black-footed ferret endangered species recovery plan revision
1998-2003	*Research Associate, University of Nevada, Reno:* Developing predictive models of population dynamics and population genetics for species at risk

Peer-reviewed publications (mentored student authors underlined)

Academic course lectures

Ray, C., 2020. Pika winter ecology. Guest lecture in *Winter ecology teacher workshop*, hosted by Rocky Mountain National Park, Colorado Parks and Wildlife, Rocky Mountain Conservancy, YMCA of the Rockies, Estes Park, CO, February 23.

Ray, C.*, A. Smith, J. Stewart, A. Whipple, et al., 2020. The little pika who could: lessons in biogeography of a model species. Guest lecture in *Biogeography*, University of Colorado, Boulder. April 22.

Ray, C., 2019. Pikas and climate. Guest lecture in *Ecology*, University of Colorado, Boulder, CO, September 12.

Ray, C., 2015. Pikas and climate. Guest lecture in *Conservation biology*, University of Colorado, Boulder, CO, June 15.

Ray, C.*, 2014. Pikas and climate. Guest lecture in *Conservation biology*, University of Colorado, Boulder, CO, November 5.

Ray, C.*, 2012. A model of climate sensitivity? Lectures presented in upper-division/graduate courses *Mountain geography* and *Conservation biology*, University of Colorado, Boulder, CO.

Ray, C.*, 2012. Climate and the American pika. Biology Club, University of Colorado, Boulder, CO, November 8.

Ray, C.*, 2011. A model of climate sensitivity? Lectures presented in upper-division/graduate courses *Novel ecosystems: understanding local manifestations of global change* and *Conservation biology*, University of Colorado, Boulder, CO.

Ray, C.*, 2010. Climate and the American pika. Lecture presented in upper-division/graduate course *Mountain geography*, University of Colorado, Boulder, CO.

Ray, C.*, 2010. Climate change and disease ecology. Lecture presented in upper-division/graduate course *Disease ecology and evolution*, University of Colorado, Boulder, CO.

Ray, C.*, 2010. Signs of demographic change and physiological stress in Rocky Mountain pikas. Lecture presented in upper-division/graduate course *Novel ecosystems: understanding local manifestations of global change*, University of Colorado, Boulder, CO.

(Course lectures prior to 2010 omitted.)

Grants and contracts

PI: Niwot Ridge LTER VII Data synthesis grant (2020): GRA (0.25 FTE) and working group support
PI: Niwot Ridge LTER VII Summer research grant (2020): GRA (0.50 FTE)
PI: National Park Service Task Agreement P18AC00585 (2020 supplement) $4.3K
Co-PI: University of Colorado-Boulder Office of University Outreach Grant (2018) $3.2K
PI: Niwot Ridge LTER VII Grant (2018): $15K
PI: National Park Service Task Agreement P18AC00585 (2018) $15K
PI: Niwot Ridge LTER VII Grant (2017): $30K
PI: National Park Service Task Agreement P16AC00704/ UCOB-112 (2016) $11K
Co-author: NSF LTREB Grant (2013) $450K (PI: S. Collinge)
PI: University of Colorado-Boulder Office of University Outreach Grant (2011) $5.5K
PI: National Park Service Climate Change Response Grant (2010) $713K
Co-author: NSF LTREB Grant (2008) $450K (PI: S. Collinge)
PI: Charlotte Martin Foundation Grant (2007) $10K
Co-author, Supervisor: Alcoa Foundation Practitioner Fellowship (2007) $10K (PI: A. Craighead)
Co-PI: WWF International Research Grant (2007) $8.6K (PI: E. Beever)
PI: WWF International Research Grant (2006) $4K
Co-PI-designate: US National Park Service GB-CESU Grant (2006) $12K (PI: E. Beever)
Contractor: Colorado Dept. of Transportation Contract (2003) $2.4K
Co-author: NSF/NIH Ecology of Infectious Diseases Grant (2002) $1.7M (PI: S. Collinge)
PI: US Fish and Wildlife Service Contract (2001) $30K
Co-author: EPA Species At Risk Grant (2001) $0.5M (PI: S. Collinge)
Co-author: US Fish and Wildlife Service Contracts (1998-2002) $400K (PI: M. Peacock)
Co-PI: NSF Dissertation Improvement Grant (1995) $4.5K (PI: A. Hastings)
PI: UC Davis Graduate Research Awards (1995, 1994) $3K
PI: UC Davis Center for Population Biology Research Grants (1992-5) $4.5K
PI: UC San Diego David J. Gambee Memorial Fellowship (1990) $1K

Awards

2020 Rocky Mountain National Park Stewardship Award
2018 Denver Zoological Conservation Award ($5K)

Honors

Graduated Summa Cum Laude, UC San Diego (1990)
Phi Beta Kappa and Caledonian honor society memberships (1990)
Judson Memorial and Sprague Memorial awards for excellence in journalism (1985)

Professional service and society memberships

IUCN Lagomorph Specialist Group
Ecological Society of America
Society for Conservation Biology
NSF Population and Community Ecology Panel (2010, 2011)

Synergistic activities

Innovations in teaching: (i) Developed "starter code" modules in R for undergraduate student projects in REU and independent study programs, to assist self-directed student learning and expansion of coding skills. (ii) Developed or co-developed software for teaching, including LESSON for teaching basic programming skills to undergraduates and METAPOP2 for modeling population and metapopulation dynamics. (iii) Developed and applied V-ART curriculum for teaching social-ecological systems concepts to K-12 audiences (Ray, C., J. Vukomanovic, P. Bourgeron, J. G. Smith and R. Andrus, 2015. V-ART curriculum for teaching social-ecological systems to children in mountain communities. LTER All Scientists Meeting, Estes Park, Colorado, Aug 30-Sep 2).

Contributions to the science of learning: Published an account of the origin and development of books and curricula associated with the NSF-supported LTER Schoolyard Book Series, as a reference for further development of the series (Ray, C., D.M. McKnight, M.D. Bidwell, T. Fourment, C. Flanagan Pritz and A.H. Rinehart. 2015. Children's book series and associated curricula support elementary education and outreach in water resources. Plant Ecology and Diversity, DOI: 10.1080/17550874.2015.1050711).

Development and/or refinement of research tools: (i) Re-vamped and expanded rvertnet for accessing the the NSF-sponsored VertNet biological database (vertnet.org). (ii) Developed sampling techniques for the study of wild American pika (*Ochotona princeps*) and Pallas' pika (*Ochotona pallasii*).

Broadening the participation of groups underrepresented in STEM: (i) Co-developed citizen-science training programs (e.g., pikapartners.org) to develop skills in citizen data collection and database use for conservation, used in the Four Corners and other regions with groups commonly underrepresented in STEM. (ii) Mentored four students from backgrounds underrepresented in science through the Niwot Ridge LTER REU program. (iii) Co-developed on-line resources designed to reach broad K-12 audiences (https://www.lessonsinlifescience.org), and developed a twitter feed @pikaresearch to showcase diversity in REU and other students of pika field research (e.g.,

https://twitter.com/pikaresearch/status/773025424452440064). (iv) Contributed to the creation of five video documentaries on American pika research, each designed for a broad audience. (v) Mentored three graduate and three undergraduate students in education and outreach culminating in STEM presentations for K-12 students in a variety of venues. (vi) Appeared twice as a guest researcher in the NSF-sponsored Teen Science Café program.

Outreach: (i) Co-developed citizen-science training programs (e.g., pikapartners) designed to develop skills in data collection and database use for conservation. (ii) Provide annual scientific oversight for long-term citizen-science monitoring of pikas in Rocky Mountain National Park, White River National Forest, Medicine Bow-Routt National Forest and throughout the Colorado Front Range.

International service: (i) Pika specialist for the IUCN Lagomorph Specialists Group. (ii) Co-organized symposia/sessions for multiple international meetings of the Ecological Society of America. (iii) Served as "opponent" for the Ph.D. disputation of Tord Snäll, Uppsala University (Sweden), and as external reviewer for the Ph.D. thesis of Geoffrey Heard, La Trobe University (Australia). (iv) Provided on-site consultation and instruction on Pallas' pika (*Ochotona pallasii*) sampling for Denver Zoo and Earthwatch Institute programs in Mongolia (2018).

National service: Service within the merit review process for the National Science Foundation, including service on NSF's Population and Community Ecology panel. Co-PI on a broad-based proposal to inventory the American pika within many land units administered by the National Park Service (Rocky Mountain, Yellowstone-Teton and Upper Columbia Basin Networks). Invited by the US Fish and Wildlife Service to coordinate revision of the recovery plan for the black-footed ferret (*Mustela nigripes*). Invited by the Colorado Department of Transportation to provide professional opinion and review of strategies for reducing the impact of highway construction on the Prebles' meadow jumping mouse (*Zapus hudsonius preblei*) and on the re-introduced lynx (*Felis lynx*). Invited by the NOAA Northwest Fisheries Science Center to participate in a Cumulative Risk Initiative workshop and related document reviews regarding the development of population viability analyses for salmonid management.

Community service: Co-organized the Front Range Pika Project, a citizen-science program to document change in the distribution and habitats occupied by the American pika. Sponsored by three non-profit organizations (Boulder County Nature Association, Rocky Mountain Conservancy Field Institute and Rocky Mountain Wild) to teach annual field courses on pika ecology for non-scientists (2007-present). Interviewed for features in print, broadcast and web media including the BBC, National Public Radio (Science Friday), H_2O Radio, Science, ABC Nightly News, al jazeera and National Wildlife.

Student mentoring

Post-doctoral students (co-advisor)
Tord Snäll, Swedish University of Agricultural Sciences, 2005

Graduate students (co-advisor)
Ashley Whipple, Masters 2019
Isabel Corona, Masters 2018

Jennifer Wilkening, Ph.D. 2014
Liesl Peterson Erb, Ph.D. 2013
Sabuj Bhattacharyya, Fulbright 2010

Undergraduate honors students (advisor)
Hilary Rinsland, Univ. of Richmond VA 2018
Emily Monk, EBIO Honors 2018
Max Wasser, EBIO Honors 2018
Lauren Benedict, Whitman College Honors 2017
Spencer Holtz, EBIO Honors 2016
Maxwell Plichta, EBIO Honors 2016
Meghan Wiebe, EBIO Honors 2015
James Howe Jr., ENVS Honors 2014

Undergraduate student research (supervisor or co-supervisor)
Claire Atkins, NSF RECCS Summer 2019
Airy Gonzáalez Peralta, Front Range Community College Spring 2019
Caitlin Stiltner, ENVS Spring 2019
Minyue Hu, ENVS Spring 2019
Haley Weaver, NSF REU Summer 2017
Emily Monk, UROP Summer 2017
Max Wasser, NSF REU Summer 2017
Hilary Rinsland, U Richmond Virginia Fellow Summer 2017
Lauren Benedict, NSF REU Summer 2016
Max Wasser, BURST Summer 2016
Jeremy Bonnell, ENVS Summer 2016
Spencer Holtz, UROP Summer 2015
Maxwell Plichta, NSF REU Summer 2015
Jasmine Vidrio, NSF REU Summer 2015
Hilary Brumberg, Wesleyan Fellowship Summer 2015
Max Wasser, UROP Summer 2015
Christian Prince, ENVS Internship Fall 2014, UROP Spring 2015
Maxwell Plichta, UROP Fall 2014
Meghan Wiebe, NSF REU Summer 2013, UROP Spring 2013
Taylor Stratton, NSF REU Summer 2013
James Howe Jr., BURST Summer 2013
Kacey Fitzgerald, UROP Summer 2013
Kayla Barton, EBIO Independent Study Spring 2013
Riley Stuckey, BURST Fall 2012
Sarah McLaughlin, NSF REU Summer 2012
Jessica Johnson, UROP Summer 2012
Brooke Regan, UROP Fall 2011
Gerardo Dillehay, NSF REU Summer 2011
Lindsey Nietmann, NSF REU Summer 2008
Phillip Wasz, NSF REU Summer 2008

Advisors

(Ph.D.) Alan Hastings, University of California, Davis
(M.A.) Michael Gilpin, University of California, San Diego (Retired)

Recent supervisors

Rodney Siegel (rsiegel@birdpop.org)
Director, Institute for Bird Populations, Petaluma, CA

Katharine Suding (Katharine.Suding@colorado.edu)
Professor of EE Biology, INSTAAR Associate and Lead Investigator for the Niwot Ridge LTER, University of Colorado, Boulder, CO
