Teaching

University of Colorado

Designing Your Leeds. A first-year seminar course that I teach as part of my Associate Dean role. The course uses “design thinking” tools to help students make informed decisions about their college careers and their futures. Teaching 2021-present.

Internship Accelerator. A second-year seminar course that I teach as part of my Associate Dean role. The course develops competencies critical to a successful transition into the workplace. Teaching 2021-present.

BASE (Business Core Applied Semester Experience). This is a required class for Leeds sophomores, a capstone for the first two years of the business core. Students work on a set of interdisciplinary team-based projects. Projects come from Colorado-based companies, the course’s “Showcase Companies.” The class is taught collaboratively by 15 Leeds faculty to over 1,000 students per year. Taught 2020-2021.

Curriculum development—initial and ongoing—for Mathematical Analysis in Business (MATH 1112), 2013-present. Estimated annual enrollment 1600 students.

Undergraduate, MBA, and MS Digital Marketing. This is a hands-on course, covering the latest tools related to website analytics, search and display advertising, social media, and marketing automation. Taught 2010-2018. Mentored several other faculty and doctoral students in teaching the course.

Undergraduate Product Strategy. The course takes a marketing perspective on the new product development process. Taught 2005-2010.

MBA Marketing of High Technology. The course covers the challenges of marketing products and services based on novel technologies, e.g., responding to the technology

adoption life cycle, forecasting sales, and facing uncertainty about technology standards. Taught 2005-2009.

Duke University

MBA Decision Models core course. The course covers decision trees, Monte Carlo simulation, and optimization. Taught in daytime and Weekend Executive programs, 1999-2005.

Ph.D. supervision of directed readings on technology choice and dynamic programming topics.
