II. Academic and Professional Background

Executive Editor	<i>Environmental Science and Technology</i> , 2022-present
Associate Dean	Associate Dean for Faculty Advancement, College of Engineering and Applied Sciences, University of Colorado Boulder, 2021-present
Associate Editor	<i>Environmental Science and Technology</i> , 2020-present
Member	Center for the Study of Origins, University of Colorado Boulder, 2019-present
Director	Environmental Engineering Program, University of Colorado Boulder, 2019-2021
Professor	Civil, Environmental and Architectural Engineering, University of Colorado, Boulder, 2019-present
Associate Director	Environmental Engineering Program, University of Colorado, Boulder, 2017-2019
Visiting Professor	Institute of Biochemistry and Pollutant Dynamics, Environmental Chemistry Group, ETH, Zürich, Switzerland, 2015-2016
Visiting Professor	Swiss Federal Institute of Aquatic Sciences and Technology, EAWAG, Dübendorf, Switzerland, 2015-2016
Associate Professor	Civil, Environmental and Architectural Engineering, University of Colorado, Boulder, 2015-2019
Assistant Professor	Civil, Environmental and Architectural Engineering, University of Colorado, Boulder, 2008-2015
Post-Doctoral:	Southern Nevada Water Authority, Henderson, Nevada, 2006-2008
Graduate:	D.Env. Environmental Science and Engineering, UCLA, 2006
Instructor:	Environmental Charter High School, Lawndale, California, 2003
Graduate:	M.S. in Chemistry, California Institute of Technology, 2002
Undergraduate:	B.S. in Chemistry, University of Puerto Rico, 1999

III. Funded Research

Current and Past Funded Grants

1. Development of an absorbance-based method to differentiate between humic substances and adulterants. Principal Investigator: Fernando L. Rosario-Ortiz. Funding Agency: HPTA. Total Award: \$28,000 (as a gift). Award Duration: **2022-2023**

2. Chemical contamination in watersheds after wildfires. Principal Investigator: Fernando L. Rosario-Ortiz. Funding Agency: Army Research Office. Total Award: \$60,000. Award Duration: **2020-2022**
3. Photochemical fate of saxitoxin and relevant analogs in aquatic systems. Principal Investigator: Fernando L. Rosario-Ortiz. Co-Principal Investigator: Teng Zheng from Syracuse University. Funding Agency: Army Research Office. Total Award: \$394,565. Award Duration: **2020-2023**
4. Quantifying hydroxylating species in dissolved organic matter. Principal Investigator: Fernando L. Rosario-Ortiz. Co-Principal Investigator: Garrett McKay. Funding Agency: National Science Foundation. Total Award: \$408,848. Award Duration: **2018-2021**
5. Application of fluorescence spectroscopy for the characterization of dissolved organic matter: Disentangling common misconceptions and underlying chemistry. Principal Investigator: Fernando L. Rosario-Ortiz. Funding Agency: National Science Foundation. Total Award to CU: \$227,538. Award Duration: **2018-2021**
6. RAPID: Assessment of water quality in Puerto Rico after Hurricane Maria. Principal Investigator: Fernando L. Rosario-Ortiz. Funding Agency: National Science Foundation. Total Award to CU: \$73,873. Award Duration: **2018-2019**
7. Characterizing pyrogenic soil organic matter as a source of nitrogenous disinfection byproducts. Principal Investigator: Fernando L. Rosario-Ortiz. Co-Principal Investigator: Julie Korak. Funding Agency: National Science Foundation. Total Award to CU: \$247,708. Award Duration: **2016-2019**
8. Impact of metals on photochemical aging of water-soluble organic carbon in atmospheric particulate matter: A combined lab and field study. Principal Investigator: Michael Hannigan. Co-Principal Investigator: Fernando L. Rosario-Ortiz. Funding Agency: National Science Foundation. Total Award to CU: \$254,219. Award Duration: **2016-2019**
9. An integrated modeling and decision framework to evaluate adaptation strategies for sustainable drinking water utility management under drought and climate change. Principal Investigator: Kenan Ozekin (WRF). Co-Principal Investigators: Balaji Rajagopalan, R. Scott Summers, Fernando Rosario-Ortiz, Ben Livneh and Joseph Kasprzyk. Funding Agency: US EPA. Total Award: \$1,250,000. Award Duration **2015-2019**
10. CAREER: Impact of effluent organic matter on photochemical processes in surface waters. Principal Investigator: Fernando L. Rosario-Ortiz. Funding Agency: National Science Foundation. Total Award: \$500,000. Award Duration: **2015-2020**
11. Wildfire Impacts on Drinking Water Treatment Process Performance: Development of Evaluation Protocols and Management Practices. Principal Investigator: Fernando L. Rosario-Ortiz. Co-Principal Investigators: R. Scott Summers, William Becker and Ben Stanford. Funding Agency: Water Research Foundation. Total Award: \$267,053. Award Duration: **2014-2017**
12. EPA National Center for Innovation in Small Drinking Water Systems: Sunlight Photochemical Processes (FRO Project, part of Center). Principal Investigator for Center: R. Scott Summers. Funding Agency: US EPA. Total Award: \$4,099,973 (\$250,000 for FRO). Award Duration: **2014-2017**
13. The impact of Colorado wildfires on source water and implications for water treatment and finished water quality. Principal Investigator: Fernando L. Rosario-Ortiz. Co-Principal Investigators: R. Scott Summers and Pinar Omur-Ozbek. Funding Agency: Water Research Foundation. Total Award: \$100,000. Award Duration: **2013-2014**

14. The impact of the High Park Fire on Source Water Quality for Utilities in Fort Collins Area. Principal Investigator: Fernando L. Rosario-Ortiz. Co-Principal Investigators: R. Scott Summers and Jeffrey Writer. Funding Agency: Water Research Foundation. Total Award: \$50,000. Award Duration: **2012-2013**
15. Impact of the High Park forest fire on water quality. Principal Investigator: Fernando L. Rosario-Ortiz. Funding Agency: Colorado Department of Public Health and the Environment. Total Award: \$54,923. Award Duration: **2013-2014**
16. Photochemical formation of hydroxyl radical from effluent organic matter. Principal Investigator: Fernando L. Rosario-Ortiz. Funding Agency: National Science Foundation. Total Award: \$234,447 (REU \$6,000 supplement awarded 2013; \$46,000 supplement awarded 2013). Award Duration: **2012-2014**
17. Characterization of organic matter in aerosols. Principal Investigator: Michael Hannigan. Collaborator: Fernando L. Rosario-Ortiz. Funding Agency: CU Boulder (Innovative Seed Grant Program). Total Award: \$46,000 (share for FRO: \$14,000). Award Duration: **2012-2013**
18. Release of algal metabolites due to pre-ozonation. Principal Investigator: Eric C. Wert. Co-Principal Investigator: Fernando L. Rosario-Ortiz. Funding Agency: Water Research Foundation. Total Award: \$269,099 (share for FRO: \$58,900). Award Duration: **2011-2013**
19. RAPID: Photochemical fate of oil dispersants in the gulf oil spill clean-up. Principal Investigator: Karl Linden. Co-Principal Investigator: Fernando L. Rosario-Ortiz. Funding Agency: National Science Foundation. Total Award: \$82,319. Award Duration: **2010-2011**
20. High quality water supply study: Impact of algae disinfection byproduct formation at Colorado drinking water utilities. Principal Investigator: Fernando L. Rosario-Ortiz. Co-Principal Investigator: R. Scott Summers and Diane McKnight. Funding Agency: Colorado Department of Public Health and the Environment. Total Award: \$73,300. Award Duration: **2010**
21. Climate change impacts on Lake Erie disinfection byproduct formation tailored collaboration proposal. Principal Investigator: Chad Seidel (Jacobs Engineering). Co-Principal Investigator: Fernando L. Rosario-Ortiz, R. Scott Summers and Diane McKnight. Funding Agency: Water Research Foundation. Total Award: \$380,893 (\$150,000 for CU). Award Duration: **2010-2013**
22. Reactivity of effluent organic matter towards hydroxyl radical and its effects on the application of advanced oxidation for water reuse applications. Principal Investigator: Fernando L. Rosario-Ortiz. Funding Agency: National Science Foundation. Total Award: \$174,977 (Additional supplement of \$41,500 awarded on Aug. 2010). Award Duration: **2009-2011**
23. Occurrence of emerging contaminants in the source waters of the city of Longmont. Principal Investigator: Fernando L. Rosario-Ortiz. Funding Agency: City of Longmont, Colorado. Total Award: \$35,766. Award Duration: **2009**
24. Watershed analysis of dissolved organic matter and control of disinfection by-products. Principal Investigator: R. Scott Summers. Co-Principal Investigator: Fernando L. Rosario-Ortiz, Diane McKnight and Judy Billica (formerly at City of Fort Collins, now at Northern Colorado Water). Funding Agency: Water Research Foundation. Total Award: \$160,000. Award Duration: **2009-2011**
25. Optimization of advanced oxidation processes (AOP) for water reuse. Principal Investigator: Fernando L. Rosario-Ortiz (at Southern Nevada Water Authority-SNWA). Co-Principal Investigator: Shane Snyder (SNWA), Eric Wert (SNWA) and Stephen Mezyk (Cal State University, Long Beach). Funding Agency: Water Reuse Foundation. Total Award: \$213,855. Award Duration: **2007-2009**

26. Comparison of chemical composition of reclaimed and conventional waters. Principal Investigator: Shane Snyder (at Southern Nevada Water Authority-SNWA). Co-Principal Investigator: Jörg Drewes (Colorado School of Mines), Erik Dickenson (Colorado School of Mines), Fernando Rosario-Ortiz (SNWA) and Mark Benotti (SNWA). Funding Agency: Water Reuse Foundation. Total Award: \$423,500. Award Duration: **2007-2009**

Other Grants

27. Application of Fourier Transform Ion Cyclotron Resonance Mass Spectrometry for Environmental Sample Analysis. Principal Investigator: Fernando Rosario-Ortiz. Award: \$12,800. Award Duration: **2018**
28. Adding advanced analytical techniques to the Water Chemistry Lab. Principal Investigator: Fernando L. Rosario-Ortiz. Funding Agency: College of Engineering; Engineering Excellence Fund. Total Award: \$33,938. Award Duration: **2012**
29. REU site in environmental engineering. Principal Investigator: Angela Bielefeldt. Co-Principal Investigator: Fernando L. Rosario-Ortiz. Funding Agency: National Science Foundation. Total Award: \$300,000. Award Duration: **2010-2013**
30. New GK-12: Engineering for society-An energy and environmental sustainability research pathway to cultivate engineering leaders and enrich education for disadvantaged youth. Principal Investigator: Jacquelyn Sullivan. Co-Principal Investigators: Malinda Zarske, Angela Bielefeldt and Fernando Rosario-Ortiz. Funding Agency: National Science Foundation. Total Award: \$2,875,000. Award Duration: **2010-2016**

14. Glover, C.#; Rosario-Ortiz, F. L. Halide quenching of reactive oxygen species photoproduced from organic matter. 10th Annual RMSAWWA/RMWEA Student Conference, Colorado School of Mines, Golden, CO. May 14th, **2013**
15. Townsend, E.#; Glover, C.#; Rosario-Ortiz, F. L. Photochemical formation of hydroxyl radical from organic matter: physicochemical characterization. Final REU presentation, Boulder, CO, August 9th, **2012**
16. Butler, M.#; Glover, C.#; Rosario-Ortiz, F. L. Detection of hydroxyl radical in detention ponds. Presentation at You're @ CU Poster Session, April 17th, **2012***
17. Glover, C. M.#; Parker, A. M.; Linden, K. G.; Rosario-Ortiz, F. L., Photochemical degradation of oil dispersants in ocean waters. 2012 RM AWWA Chapter, May **2012**
18. Glover, C.M.#; Parker, A.M.; Linden, K. L.; Rosario-Ortiz, F.L. Photochemical degradation of oil dispersants in ocean waters. NIST Materials Challenges for Next-Generation Water Treatment. Boulder, CO, October 27th-28th, **2011**. (poster)

19. Leppek, B.[#]; Dong, M. M.; Rosario-Ortiz, F. L. Indirect photolysis of organic contaminants in wastewater dominated streams. Discovery Learning Apprentice Poster Session, CU Boulder, April 15, **2011** (poster)
20. McKay, G.[#]; Dong, M. M.[#]; Mezyk, S. P.; Rosario-Ortiz, F. L. Determination of activation energies for the reaction of hydroxyl radical and effluent organic matter as a function of molecular weight. Final REU Presentation, Boulder, CO, August 5th, **2010**
21. Peña, A.[#]; Gonzales, S.; Rosario-Ortiz, F. L. Investigating the effect of wastewater organic matter on the application of ozone for micropollutant degradation for water reuse. SMART Program Final Meeting, Boulder, CO, August 5th, **2010**
22. Dong, M. M.[#]; Mezyk, S. P.; Rosario-Ortiz, F. L. Reactivity of effluent organic matter towards hydroxyl radical as a function of molecular weight and its effects on the application of advanced oxidation. 7th Annual WEF/AWWA Student Conference, University of Colorado, Boulder, May 18th, **2010**
23. Gonzales, S.[#]; Rosario-Ortiz, F. L. The relationship between the apparent molecular weight of effluent organic matter and ozone/hydroxyl radical exposure. 7th Annual WEF/AWWA Student Conference, University of Colorado, Boulder, May 18th, **2010**
24. Sanchez, R.[#]; Dong, M. M.; Gonzalez, S.; Rosario-Ortiz, F. L. Physicochemical characterization of effluent organic matter as a function of molecular weight. SMART summer poster presentation, Boulder, CO, August **2009**
25. Campos, J. J.; Rosario-Ortiz, F. L.; Quiñones, E. On the Development of a β -Cyclodextrin-Lissamine Complex as a Solution Additive in the Separation of Enantiomers. 2nd Annual Undergraduate Research Symposium & Colloquium on Ethics, Río Piedras Campus, University of Puerto Rico, Río Piedras, PR; July 29, **1999**
26. Rosario, F. L.; Geiger, C.; Whitten, D. Self-Assembly of Styryl Naphthalene Amphiphiles: Aggregate Structure, Assembly Properties, Photochemistry and Photophysics. NSF Center for Photoinduced Charge Transfer Summer Program Meeting, Rochester, NY; August 3, **1998***
27. Rosario, F. L.; Quiñones, E.; Rodriguez, A. Topological Studies of Pheophytin-a in SDS. 22nd Senior Technical Meeting, Aguadilla, PR; November 13-14, **1998***

Invited Presentations

1. Gordon DBP discussion leader, **2023**
2. Towards an improved understanding of the optical and photochemical properties of dissolved organic matter. ACS, **2023**
3. Differentiating between fulvic acids and adulterants by UV-Vis spectroscopy. HPTA annual meeting, Park City, Utah, September 25th, **2022**
4. Wildland and WUI fires: Impact to water quality and research needs. Department of Civil and Environmental Engineering, Princeton University, October 13th, **2022**
5. Impact of wildfires on water quality and treatment. WestFast Webinar, September 21st, **2022**
6. Impact of wildfires on water quality and treatment. SciLine/AAAS. August 4th, **2022**
7. Photochemical processes in surface waters. Universidad Politécnica de Valencia, Valencia, Spain, May 31st, **2022**

8. Photochemical processes in surface waters. Impact of wildfires on water quality and treatment. Universidad Politécnica de Valencia, Valencia, Spain, June 2nd, **2022**
9. Towards an improved understanding of the formation of reactive intermediates from DOM. ACS Spring Meeting, San Diego, CA, March 20-24, **2022**
10. Assessing the Impact of Wildfires on Water Quality and Treatment. Upflow AWWA Conference. Nov 4th, **2021**
11. Origins of the optical properties of DOM: Current theories and implications. HPTA Annual Conference, November 16th, **2021**
12. Impact of wildfire on drinking water utilities and strategies for mitigation and risk reduction. AWWA California0Nevada Section Conference. October 18-21, **2021**
13. Assessing the impact of wildfires on water quality and treatment. 14th Annual Western Colorado Water and Wastewater Conference. October 6th, **2021**
14. Origins of the optical properties of DOM: Current theories and implications. ETH Zurich, July 20th, **2021**
15. Wildfire impacts on source water quality and treatment. SGM Winter Forum. January 29th, **2021 (Remote)**
16. The impact of wildfires on human health and environment. CU Boulder Alumni Event. November 18th, **2020 (Remote)**
17. Wildfire implications and resilience for water utilities. Water Research Foundation **2020 (Remote)**
18. Evaluating the complex impact of wildfires on watersheds and drinking water quality. Department of Chemistry, Case Western Reserve University, September 10th, **2020 (Remote)**
19. Assessing the impact of wildfires on water quality and treatment. Water RA Catchment Forum, Brisbane, AU, March 16, **2020 (Remote)**
20. Assessing the impact of wildfires on water quality. Department of Civil and Environmental Engineering, Texas AM University, February 24, **2020**
21. Assessing the impact of wildfires on water quality. AWWA Water Quality Technology Conference, Dallas, TX, November 5th, **2019**
22. Research on impacts of extreme events on water quality. Ecologies of practice symposium, University of Colorado Boulder, September 19th, **2019**
23. Characterization of DOM in natural and engineered system. Southern Nevada Water Authority, Henderson, NV, September 12th, **2019**
24. Assessing the impact of wildfires on water quality and treatment. ACS National Meeting, San Diego, CA, August 28th, **2019**
25. Assessing the effect of oxidation on the photophysical and photochemical properties of dissolved organic matter. ACS National Meeting, San Diego, CA, August 28th, **2019**
26. Assessing the impact of wildfires on water quality, City of Boulder Drinking Water Facility, December 13th, **2018**
27. Assessing the impact of wildfires on water quality, City of Boulder Drinking Water Facility, December 13th, **2018**

28. Assessing the impact of wildfires on water quality. Department of Land, Air, and Water Resources, University of California, Davis, December 3rd, **2018**
29. Assessing the impact of wildfires on water quality. NY Department of Environmental Protection, Kingston, NY, November 15th, **2018**
30. Assessing the impact of wildfires on water quality. Department of Civil and Environmental Engineering, Syracuse University, October 12th, **2018**
31. Assessing Puerto Rico's hurricane impact on water quality. 256th ACS National Meeting, Boston, MA, August 19-23, **2018**
32. Impact of wildfires on carbon mobilization. Wildfires, Water Quality Impacts, and Forestry Management, University of Colorado Boulder, June 5th, **2018**
33. Are wildfires poisoning our water supplies? East Los Angeles Community College, April 23rd, **2018**
34. Assessing the impact of wildfires on water quality. Department of Civil and Environmental Engineering and Earth Sciences. University Notre Dame. February 26th, **2018**
35. Impact of wildfires on water treatment and formation of disinfection byproducts. University of Lisbon, February 16th, **2018**
36. Environmental photochemistry of organic matter. Department of Civil and Environmental Engineering, University of California, Irvine, January 26th, **2018**
37. Assessing the impact of wildfires on water quality. Department of Civil and Environmental Engineering, Colorado School of Mines, January 18th, **2018**
38. Ongoing Research on wildfire water quality. EPA National Priorities: Systems-based strategies to improve the Nation's ability to plan and respond to water scarcity and drought meeting. Oakland, December 8th, **2017**
39. Assessing the impact of wildfires on water quality. University of California, Merced, November 15th, **2017**
40. Assessing the impact of wildfires on water quality and treatment efficacy. AEESP Emerging Investigator Lecture, AWWA WQTC, Portland, Oregon, November 13th, **2017**
41. Assessing the impact of wildfires on water quality. USGS Lakewood, CO, June 15th, **2017**
42. Assessing the impact of wildfires on water quality. EPA National Enforcement Investigations Center, May 31st, **2017**
43. Assessing the impact of wildfires on water quality. Department of Civil and Environmental Engineering, University of California, Irvine, May 26th, **2017**
44. Assessing the impact of wildfires on the mobilization of dissolved organic carbon from soils, INSTAAR, April 24th, **2017**
45. Assessing the impact of wildfires on water quality and treatment. Department of Civil and Environmental Engineering, University of Nevada, Reno, March 9th, **2017**
46. Assessing the impact of wildfires on water quality and treatment. Department of Civil and Environmental Engineering, University of Iowa, December 2nd, **2016**
47. Assessing the impact of wildfires on water quality and treatment. Department of Civil and Environmental Engineering, University of California, Riverside, October 21st, **2016**
48. Environmental photochemistry of organic matter. Stanford University, August 10th, **2016**

49. Environmental photochemistry of organic matter. EPFL, Lausanne, Switzerland, April 12th, **2016**
50. Environmental photochemistry of organic matter. Technische Universität München, Munich, Germany, November 16th, **2015**
51. Assessing the impact of wildfires on water quality and treatment. EAWAG Department of water resources and drinking water. October 19th **2015**
52. Assessing the impact of wildfires on water quality and treatment. Department of Chemical Engineering, University of Bath, UK, October 9th, **2015**
53. Photochemical formation of hydroxyl radical from wastewater-derived organic matter. Keynote address at the 2015 Annual Meeting of the Swiss Photochemistry Section, ETH Zurich, September 8th, **2015**
54. Environmental photochemistry of organic matter. University of Arizona, Tucson, April, 28th, **2015**
55. Environmental photochemistry of organic matter. Department of Chemistry, Case Western Reserve University, April 2nd, **2015**
56. The impact of the High Park Wildfire on source water quality and implications for treatment. Institute of the Environment and Sustainability, Environmental Science and Engineering Program, UCLA. February 3rd, **2015**
57. The impact of wildfires on water quality. National Ecological Observatory Network, Boulder, CO, December 2nd, **2014**
58. The application of ozone for water reuse. University of Sheffield, Sheffield, UK, June 17th, **2014**.
59. Photochemistry of effluent organic matter. Swiss Federal Institute of Aquatic Science and Technology (EAWAG), Dübendorf, Switzerland, June 13, **2014**
60. Photochemistry of effluent organic matter. Swiss Federal Institute of Technology (ETH), Zurich, Switzerland, June 12, **2014**
61. The impact of the High Park Wildfire on source water quality and implications for treatment. Colorado Department of Public Health and Environment, Denver, CO. June 4th, **2014**
62. Analytical framework for the development of nutrient criteria for PWS. Presented at “The impacts of nutrient enrichment on drinking water quality”. Webinar presented by the American Water Works Association, April 30th, **2014**
63. Photochemical formation of reactive oxygen species from wastewater organic matter. Department of Chemistry and Biochemistry, Florida International University, Miami, FL, February 28th, **2014**
64. The connection between the properties of organic matter and its reactivity in the environment. Department of Soil and Crop Sciences, Colorado State University, Fort Collins, CO, January 23rd, **2014**
65. Photochemical formation of reactive oxygen species from wastewater organic matter. Department of Chemistry and Biochemistry, University of Colorado, Boulder, December 2nd, **2013**
66. Photochemical formation of reactive oxygen species from wastewater organic matter. Department of Chemistry, Denver University, October 24th, **2013**
67. Photochemical formation of reactive oxygen species from wastewater organic matter. Department of Civil and Environmental Engineering, Georgia Tech, September 25th, **2013**
68. Photochemical formation of reactive oxygen species from wastewater organic matter. Department of Chemistry, Ball State University, September 9th, **2013**

69. Photochemical formation of reactive oxygen species from wastewater organic matter. Department of Civil Engineering, University of Minnesota, June 27th, **2013**
70. Graduate investments and reciprocity. National Institute for Leadership Advancement, Denver CO, August 2nd, **2013**
71. Impact of the High Park fire on water quality. Wildfire Readiness and Response Workshop, Denver, CO, April 4-5th, **2013**
72. The role of nutrient levels and algae on DBP formation in Colorado watersheds. Department of Civil and Environmental Engineering, University of Colorado, Denver, February 18th, **2013**
73. The radical chemistry of effluent organic matter. Department of Chemistry, University of Puerto Rico, Rio Piedras, PR, November 16th, **2012**
74. Evaluation of the effectiveness of ozone for the oxidation of emerging contaminants. International Ozone Association PAG meeting. Milwaukee, WI. September 23rd, **2012**
75. The radical chemistry of effluent organic matter. Civil, Environmental and Sustainable Engineering Program, Arizona State University, AZ, February 28th, **2012**
76. Photochemical degradation of oil dispersants in ocean water. Presented at the “What happened at Deepwater Horizon? Workshop”, University of Colorado, Boulder, January 26th, **2012**
77. Effect of organic matter on the application of advanced oxidation processes. Trojan Technologies, London, ON, CA. April 26th, **2011**
78. Effects of EfOM on the application of AOPs for wastewater treatment. Seminar at Colorado State University-Department of Civil and Environmental Engineering, Fort Collins, CO, September 14, **2010**
79. Emerging contaminants in water: Overview and Research Opportunities. Third Puerto Rico NSF EPSCoR/RII Institute for Functional Nanomaterials (IFN) Annual Meeting, Rio Grande, PR, May 20, **2010**
80. Overview of efforts towards understanding of TOC issues in watersheds. Front Range Drinking Water Consortium Meeting, Westminster, CO, May 19, **2010**
81. Emerging contaminants: Sources and treatment. 8th CECIA-IAU Biennial Symposium on Potable Water Issues in Puerto Rico: Science, Technology and Regulation. San Juan, PR, February 19-20, **2009**

VI. Distinctions and Honors

1. Travel support to visit the Universidad Politécnica de Valencia, Valencia, Spain **2022**
2. Selected as part of National Academies of Sciences, Engineering, and Medicine committee: The Chemistry of Urban Wildfires, **2020**
3. Invited to join EST as an Associate Editor, **2020**
4. Best paper award, AWWA Water Science, **2020**
5. Excellence in Review, Super Reviewer Award, *Environmental Science and Technology*, **2018**
6. Selected to participate at the Excellence in Leadership Program at the University of Colorado, **2018-2019**
7. Selected as a RIO fellow, University of Colorado, Boulder, **2017-2018**
8. Selected as part of the BFA Leadership Institute 2017-18 cohort, University of Colorado, Boulder, **2017-2018**
9. Selected as the inaugural AEESP Emerging Investigator Lecture at the AWWA WQTC Conference, **2017**

10. Selected as Trustee for the Water Quality and Research Division of the American Water Works Association, **2017-present**
11. Selected as one of the top 10 reviewers for *Environmental Science: Water Research and Technology*, **2016**
12. University of Colorado, Boulder, Provost Faculty Achievement Award, **2016**
13. Shaye Faculty Fellowship, University of Colorado, Boulder **2016-2019**
14. Best paper award, Journal American Water Works Association, **2016**
15. College of Engineering and Applied Science Dean's Award for Outstanding Junior Faculty, University of Colorado Boulder, **2015**
16. Visiting professor, ETH, Zurich, **2015-2016**
17. Visiting Scientist, EAWAG, Dübendorf, **2015-2016**
18. University of Colorado Boulder Faculty Assembly Faculty Recognition Award, **2015**
19. National Science Foundation CAREER award, **2015**
20. College of Engineering and Applied Science Dean's Award for Professional Development, University of Colorado Boulder, **2014**
21. Excellence in Review Award, *Environmental Science and Technology*, **2014**
22. Faculty research development award, Department of Civil, Environmental and Architectural Engineering, University of Colorado Boulder, **2014**
23. American Water Works Association, Water Science & Research Division Volunteer Recognition Award, **2014**
24. Outstanding Faculty Award, Student Leadership Council, College of Engineering and Applied Science, University of Colorado Boulder, **2013**
25. ASCE Fellowship to attend the ExCEED workshop, Florida Gulf Coast University, July 21-26th, **2013**
26. Carl Storm Underrepresented minority (CSURM) Fellowship. Supported travel to attend Gordon Research Conference, June 24-29th, **2012**
27. Travel award to participate at the 2005 Ecological Chemistry Conference held at the Republic of Moldova, May 20-21, **2005** (Travel funded by the American Chemical Society and the National Science Foundation)
28. International Humic Substances Society (IHSS) Travel Award to present at the XII International Meeting of the IHSS in São Pedro; Brazil July 26-30, **2004**
29. National Consortium for Graduate Degrees for Minorities in Engineering and Science, INC. (GEM) Fellowship, **2000-2001**
30. Puerto Rican Chemical Society Award, **1999**
31. Selected as the Best Chemistry Student in Puerto Rico by the Puerto Rican Chemical Society, **1998-1999**
32. American Chemical Society Undergraduate Award in Analytical Chemistry, **1998**
33. Minority Access to Research Careers (MARC) Fellowship, **1996-1999** University of Puerto Rico

VII. Professional Affiliations

1. American Chemical Society (1995-present)
2. American Water Works Association (2003-present)
3. International Ozone Association (2007-2010)
4. International Water Association (2008-2009)
5. Association of Environmental Engineering and Science Professors (2008-present)
6. American Society for Engineering Education (2008-2009)
7. International Humics Substances Society (2005-present)

VIII. National and International Service

1. Volunteer for National and International Conferences
 - a) American Chemical Society National Meetings
 - i) “Dissolved organic matter: Composition and transformations in natural and engineered systems”. ACS Fall meeting, August 22-26, **2021**
 - ii) “Chemistry of water treatment: Honoring Mel Suffet”. 253rd National ACS Meeting in San Francisco, CA, April 2-6, **2017** (co-organizer)
 - iii) “Modern Analytical Approaches for the Characterization of Natural Organic Matter in the Environment” for the 249th National ACS Meeting in Denver, CO, March 22-26, **2015**. (co-organizer)
 - iv) “Occurrence and fate of emerging contaminants in the urban water cycle”. 248th ACS Meeting, San Francisco, CA, August 10-14, **2014** (co-organizer)
 - v) “Humic substances and their critical role in environmental chemistry”. 248th ACS Meeting, San Francisco, CA, August 10-14, **2014** (co-organizer)
 - vi) “Physicochemical Characterization of Organic Matter: Past, Present and Future and the Role in the Environment”. 245th American Chemical Society National Meeting, New Orleans, **2013** (Organizer)
 - vii) “Environmental fate of dispersants used in oil spills”. 243rd American Chemical Society National Meeting, in San Diego **2012** (co-Organizer)
 - viii) “Chemistry of hydroxyl radical in natural and engineered systems”. 242nd American Chemical Society National Meeting, Denver **2011** (Organizer)
 - ix) “Occurrence, detection and removal of pharmaceuticals and personal care products in potable water sources”, 241st American Chemical Society National Meeting, Anaheim, **2011** (co-Organizer)
 - x) “Chemistry of AOP radicals in water and wastewater treatment”, 240th American Chemical Society National Meeting, Boston, **2010** (Organizer)
 - b) International Water Association
 - i) Collections committee **2021-present**
 - ii) Scientific Committee International Water Association Specialty Conference in NOM, Irvine, CA, July 27-29th, **2011**
 - c) International Ozone Association
 - i) Technical committee International Ozone Association Conference, Seattle, WA September 18-21, **2010**
 - d) American Water Works Association
 - i) “Effectively assessing and treating dissolved organic matter from affected watersheds”. Workshop presented at AWWA Annual Conference and Exposition, June 9th, **2013**
 - e) International Humic Substances Society
 - i) Co-Organizer for the 20th IHSS Conference in Estes Park, August **2020**
 - f) AEESP
 - i) “Redox processes for the mitigation of anthropogenic and biogenic pollutants in the environment”. AEESP 50th Anniversary Conference, Golden, CO, July 14-16, **2013**
 - g) AGU
 - i) Organizer for workshop entitled “Trials and tribulations of fluorescing dissolved organic matter chemical interpretation: Converging fluorescent community challenges.” 2017 AGU Meeting in New Orleans, **2017**
2. Committee Work
 - a) Member of the ACS Environmental Chemistry Division, Member-at-Large position (**2022-present**)

- b) Board member for the Humics Product Trade Association (HPTA) ((**2021-present**))
 - c) Member of National Academies of Sciences, Engineering, and Medicine committee: The Chemistry of Urban Wildfires, **2020-2022**
 - d) Trustee for the American Water Works Association, Water Quality and Research Division, **2017-present**
 - e) Member of the American Water Works Association University Student Activity Committee. This committee focuses on the evaluation of abstracts, presentations and thesis submitted by students. (**2015-present**)
 - f) Chair of American Water Works Association Organic Contaminant Research Committee (**2011-2014**). Responsibilities included developing overview articles, workshops and other materials relevant to the needs of the drinking water community
 - g) Member of American Water Works Association organic contaminants committee (**2006-2014**)
3. Member of the International Water Association specialist group on Water Reuse (**2008-2010**)
 4. Workshops Attended
 - a) Water Research Foundation Nanomaterials Workshop, Denver June 28-29, 2011
 5. Member of project advisory committee (PAC). Responsibilities include reviewing progress made on projects by different teams and review final report before final publication.
 - a) Water Research Foundation 5035 (2019-2022)
 - b) Water Research Foundation 4499 (2013-2015)
 - c) Water Research Foundation 4422 (2012-2014)
 - d) Water Research Foundation 4336 (2010-2012)
 - e) Water Research Foundation 4113 (2007-2010)
 6. Member of review panel for proposals
 - a) Howard Hughes Medical Institute, 2022
 - b) National Science Foundation
 - i) NSF ERC SVT (2018-present)
 - ii) July 2018 (EEC)
 - iii) May 2018 (EPsCOR)
 - iv) September 2017 (CBET)
 - v) April 2017 (EPsCOR fellowship proposals (2 by email))
 - vi) February 2017 (CBET)
 - vii) October 2016 (CBET)
 - viii) April 2014 (CBET)
 - ix) June 2013 (BRIGE)
 - x) April 2011 (CBET-by mail)
 - xi) October 2010 (MRI-by mail)
 - xii) October 2009 (CBET)
 - xiii) February 2009 (CBET)
 - xiv) December 2020 (ERC pre-proposals)
 - c) EPA
 - i) STAR panel 2012 (by mail)
 - ii) STAR panel 2011
 - d) Canada Water Network
 - i) October 2009
 - ii) June 2009
 - e) Romanian National Scientific Research Council
 - i) Spring 2012
 - ii) Summer 2011
 - f) ACS Petroleum Research Fund

- g) Ohio Sea Grant
- 7. Reviewer for peer reviewed publications (in alphabetical order)
 - a) ACS Books-Symposium Series
 - b) ACS EST Water
 - c) Analytical Chemistry
 - d) AWWA Water Science
 - e) Chemical Engineering Journal
 - f) Chemosphere
 - g) Environmental Engineering Science
 - h) Environmental Science and Technology
 - i) Environmental Science and Technology Letters
 - j) Environmental Science: Processes and Impacts
 - k) Environmental Science: Water Science and Technology
 - l) Environmental Technology
 - m) Journal of Applied Oxidation Technologies
 - n) Journal of Environmental Engineering
 - o) Journal of Environmental Management
 - p) Journal of Hazardous Materials
 - q) Journal of Photochemistry and Photobiology A: Chemistry
 - r) Journal of the American Water Works Association
 - s) Journal of Water and Health
 - t) Water Research
- 8. Chair of the Nomination Committee for the International Humic Substances Society (2015)
- 9. Editorial Experience
 - a) Associate Editor for *Environmental Science and Technology*, **2020-present**
 - b) Associate Editor for *AWWA Water Science*, **2018-present**
 - c) Member of the Editorial Advisory Board for *Environmental Science and Technology*, **2018-2020**
 - d) Guest Editor for virtual issue of *Environmental Science and Technology* honoring George Aiken, **2017-2018**
 - e) Guest Editor *Journal of Soils and Sediments*, **2016-2017**
 - f) Guest Editor *Journal of the American Water Works Association*, April **2013**

IX. University Service

1. Member of School of Education first level review committee, **2022**
2. Member of Vice Chancellor Advisory Committee, **2022-2025**
3. Member of the CREE committee, **2022-present**
4. Member of search committee for dean of engineering, **2021-2022**
5. Search committee College of Engineering and Applied Science Faculty Search Committee, **2020-2021**
6. Member of IDEA Council for Diversity and Inclusion, **2020-present**
7. Chair of EVEN instructor faculty search committee, **2019-2020**
8. Member of search committee for dean of engineering, **2019-2020**
9. Director, Environmental Engineering Program, University of Colorado, Boulder, **2019-present**
10. Member of the Academic Futures Committee, University of Colorado, Boulder, **2017-present**
11. Chair for the EVEN tenure track faculty search committee, **2017-2018**
12. Associate Director, Environmental Engineering Program, University of Colorado, Boulder, **2017-2019**
13. RAP review task force, University of Colorado, Boulder, **2016-2017**

14. Chair of the EVEN graduate committee, University of Colorado, Boulder, **2016-present**
15. Graduate Admissions Committee, Department of Civil, Environmental and Architectural Engineering, **2008-2010; 2012-2013; 2015-2016**
16. Member of the Boulder Faculty Assembly Faculty Affairs Committee, **2015-2019**
17. Chair of interview committee for CEAE, **2014**
18. Chair of the *ad hoc* awards committee, Department of Civil, Environmental and Architectural Engineering, **2014-present**
19. Organizer for Environmental Engineering Seminar Series, **Fall 2012, Fall 2013, Spring 2014, Fall 2016, Fall 2020, Spring 2021**
20. First year mentoring student program, including being a member of the *ad-hoc* executive committee for the program, Boulder Faculty Assembly, Fall **2013-2015**
21. Instructor Search Committee, Environmental Engineering Program, **2013-2014**
22. Faculty Search Committee, Department of Civil, Environmental and Architectural Engineering, **2012-2013**
23. Environmental Engineering Program Steering Committee (**2011-2012**)
24. Research Committee, Department of Civil, Environmental and Architectural Engineering, **2010-2011**
25. Diversity Action Committee, College of Engineering and Applied Sciences **2009-2012**

X. Students Mentored (including past and current members of research group)

1. High school
 - a. Elizabeth McNichols (Summer 2014)
 - b. Matt McNichols (Summers 2011 and 2012)
2. Undergraduate
 - a. Julia Gentile (2022-present)
 - b. Alexa Martinez (2021)
 - c. Liz Wallace (2020-2021)
 - d. Leah Rivera (2020-2021)
 - e. Charles Bombard (2020)
 - f. Jade Foley (AY 19-20-BS senior thesis)
 - g. Shelby Buckley (2019-2021)
 - h. Alexander Rubino (2019)
 - i. Jeremy Torres-Ruiz (Summer 2018)
 - j. Claire Farmer (Spring 2018-2020)
 - k. Madeline Hankard (Summer 2017)
 - l. Giovanni Caro-Ortiz (Summer 2017)
 - m. Melanie Warren (Spring 2017)
 - n. Tyler Kurtz (Fall 2016-Spring 2018)
 - o. Andrew Moscovich (Spring 2016)
 - p. Wade Godman (Spring 2016)
 - q. Celeste Havener (Summer 2015)
 - r. Ariel Retuta (Summer/Fall 2015)
 - s. Juliana Laszakovits (Summer 2015)
 - t. Kylie Crouch (Summer 2015)
 - u. Jacco Ramirez (REU Summer 2015)
 - v. Jenna Crouch (Spring 2015-Summer 2016)
 - w. Stephanie Ho (Fall-Spring 2014-15)

- x. Marta Viscut (DLA Fall-Spring 2014-15)
 - y. Stephanie Johnson (REU Summer 2014)
 - z. Jesse Nestler (Fall 2013-2014)
 - aa. John Meyer (DLA, 2013-2014)
 - bb. Matt McNichols (Summer 2013)
 - cc. Cristina Tillberry (REU 2013, Summer 2014)
 - dd. Sarah Al- Multaq (REU 2013, Summer, Fall 2013)-BS Thesis
 - ee. Katie Birch (Fall 2012-independent study)
 - ff. Eli Townsend (NSF Research Experiences for Undergraduates Summer 2012; Earn Learn Fall 2012, research assistant Spring 2013)
 - gg. Miranda Butler (Spring/Fall 2012)
 - hh. Jenniffer Mountinho (Summer 2011-REU)
 - ii. Katherine Dowdell (Fall/Spring 2010-2011)
 - jj. Bailey Leppek (Discovery Learning Apprenticeship-Fall/Spring 2010; Research funding Fall 2011)
 - kk. Andria Peña-Melendez (Summer Multicultural Access to Research Training program, summer 2010)
 - ll. Garrett McKay (NSF Research Experiences for Undergraduates program, summer 2010)
 - mm. Roberto Sanchez (Summer Multicultural Access to Research Training program, summer 2009)
3. Masters
- a. Claire Farmer (2019-2021)
 - b. Tyler Kurtz (2019-2021)
 - c. Kylie Couch (8/2016-2021)
 - d. Alex Nolan (2019-2020)
 - e. Paul Wilkerson (10/18-2020)
 - f. Ariel Retuta (1/2016-8/2018)
 - g. Stephanie Kover (1/2012-05/2013) (co-advised with Karl Linden)
 - h. Fan Ye (1/2012-Summer 2013)
 - i. Amanda Hohner (01/2010 -12/2011)
 - j. Sarah Gonzales (06/2009 -12/2010)
4. Doctoral
- a. Mackenzie Bowden (co-advised with Cresten Mansfeldt, 2022-present)
 - b. Karri Norris (2021-present)
 - c. Shelby Buckley (2019-present)
 - d. Carli Brucker (co-advised with Ben Livneh, 2019-present)
 - e. Blair Hanson (5/18-present)
 - f. Garrett McKay (6/2014-12/2017)
 - g. Parnaz Boodagh (Spring 2014-12/2016) (co-advised with Wei Tan)
 - h. Amanda Hohner (6/2013-11/2016)
 - i. Simon Mostafa (8/2011-5/2015) (co-advised with Karl Linden)
 - j. Caitlin Glover (6/2010-5/2015)
 - k. Julie Korak (6/2011-7/2014)
 - l. Eric Wert (8/2011-05/2013)
 - m. Mei Mei Dong (6/2009 - 5/2012)
5. Post-doctoral
- a. Elena Vialykh, 2019-present
 - b. Sarah Fischer, 2019-2021
 - c. Frank Leresche, 2017-present

- d. Yun (Rosa) Yu, 2016-2018
- e. Jackson Webster, 2015-2016
- f. Julie Korak, 2014-2015
- g. Kaelin Cowley, 2013-2015
- h. Eunkyung Lee, 2012-2013
- i. Gaelle Semard, 2009

6. Visiting Students

- a. Anastasia Doronina (PhD student from the University of Sheffield, 2019)
- b. Marcela Prado (PhD student from Brazil). February-July, 2014

XI. Courses Taught at CU

- 1. CHEN 1203: General Chemistry for Engineers
- 2. EVEN 1000: Introduction to Environmental Engineering
- 3. CVEN 5424: Environmental Organic Chemistry
- 4. CVEN 5834: Analytical Methods in Environmental Engineering
- 5. CVEN 6404: Advanced Aquatic Chemistry
- 6. CVEN 4404/4414: Water Chemistry
- 7. CVEN 3414: Fundamentals of Environmental Engineering

XII. Media appearances

- 1. Coverage related to work done evaluating the water quality in Puerto Rico.
 - a. <https://www.colorado.edu/today/2022/09/30/puerto-ricos-precarious-relationship-between-power-and-water>
 - b. Marketplace after Hurricane Fiona: <https://www.marketplace.org/2022/09/23/puerto-rico-struggles-with-water-for-residents-again-in-the-wake-of-another-hurricane/>
 - c. Interviewed on an article on NPR (<https://www.npr.org/sections/health-shots/2018/09/20/645625805/puerto-ricos-tap-water-often-goes-untested-raising-fears-about-lead-contaminatio?t=1537505544031>), **2018**
- 2. Coverage related to “How do you like your tap water?” publication in *Science*.
 - a. Interviewed guest on Science magazine podcast 2/25/16 (<https://itunes.apple.com/us/podcast/science-magazine-podcast/id120329020?mt=2&i=363694533>)
 - b. Article in English in The Conversation (<https://theconversation.com/can-drinking-water-be-delivered-without-disinfectants-like-chlorine-and-still-be-safe-55476>)
 - c. Article in French in The Conversation (<https://theconversation.com/leau-potable-peut-elle-se-passer-de-desinfectants-56620>)
 - d. Article in Medical Daily (<http://www.medicaldaily.com/drinking-water-disinfectant-water-pipes-375198>)
 - e. Article in Water Online (<http://www.wateronline.com/doc/are-residual-disinfectants-really-crucial-to-clean-water-0001>)
 - f. Article in Examiner (<http://www.examiner.com/article/infrastructure-study-sheds-light-on-water-purity>)
 - g. Article in El Español (http://www.lespanol.com/ciencia/20160225/104989818_0.html)
 - h. Article in Dutch Newspaper (<http://www.volkskrant.nl/wetenschap/internationaal-onderzoek-nederlands-drinkwater-van-topkwaliteit~a4253528/>)
- 3. Coverage related to research on the impact of wildfires on water quality
 - a. <https://fronterasdesk.org/content/1811311/experts-say-its-time-think-beyond-battling-wildfires-and-find-way-live-them>

- b. <https://kjzz.org/content/1811311/experts-say-its-time-think-beyond-battling-wildfires-and-find-way-live-them>
 - c. Sciline/AAAS media briefing, 2022
 - d. NPR interview <https://www.kunm.org/local-news/2022-06-02/even-as-fire-rages-a-race-to-protect-waterways-from-debris-and-floods> and <https://www.npr.org/2022/05/31/1102097127/people-in-new-mexico-brace-for-other-issues-a-menacing-wildfire-will-create>.
 - e. Featured in Denver Post coverage of wildfires (<https://www.denverpost.com/2022/01/06/marshall-fire-debris-removal-clean-up/>). **2021**
 - f. Featured in NPR coverage of wildfires. (<https://www.npr.org/transcripts/1025248691>). **2021**
 - g. Featured in Phys.org article (<https://phys.org/news/2021-02-wildfires-pollute-hills-santa-cruz.html>). **2021**
 - h. Featured in LA times article on wildfires. (<https://www.latimes.com/california/story/2021-02-13/wildfire-santa-cruz-boulder-creek-residents-fear-water-quality>). **2021**
 - i. Featured in Colorado Public Radio article on wildfires. (<https://www.cpr.org/2021/07/28/wildfires-steamboat-springs-water-supply-fish-creek/>). **2021**
 - j. Featured in NYTimes article (<https://www.nytimes.com/2020/10/02/science/wildfires-water-toxic.html>), **2020**
 - k. Featured in Treatment Plant Operator news release (https://www.tpomag.com/online_exclusives/2018/12/wrf-releases-report-about-wildfire-impacts-on-drinking-water). **2018**
 - l. Interviewed for article in Bloomberg Environment (<https://news.bloombergenvironment.com/environment-and-energy/off-the-charts-air-pollution-only-one-of-californias-fire-hazards>). **2018**
 - m. Press release regarding project on wildfires and water quality. (<https://www.wateronline.com/doc/wrf-releases-report-about-wildfire-impacts-on-drinking-water-0001>), **2018**
 - n. Interviewed for article in Yale Environment 360. (<https://e360.yale.edu/features/how-wildfires-are-polluting-rivers-and-threatening-water-supplies>), **2018**
 - o. Featured in report by local ABC station, July 2nd, **2018**
 - p. Interviewed for article on the front page of Denver Post, July 2nd, **2018** (https://www.denverpost.com/2018/07/02/high-country-colorado-wildfire-watersheds/?utm_source=mile-high-roundup&utm_medium=Email&utm_term=https%3a%2f%2fwww.denverpost.com%2f2018%2f07%2f02%2fhigh-country-colorado-wildfire-watersheds%2f&utm_campaign=roundup20180702)
 - q. Interviewed for article on the Daily Camera, June 23rd, **2018** (http://www.dailycamera.com/cu-news/ci_31963273/cu-boulder-study-shows-wildfires-downstream-effect-water)
 - r. Interviewed for the Science Update Radio show (<http://www.scienceupdate.com/2018/03/fire-2/>), March 21st, **2018**
 - s. Press conference on wildfires at the ACS National Meeting in New Orleans, March **2017**
 - t. Featured in article entitled “Wildfires: A year later, a destructive fire’s legacy arrives as a flood”. Published by Environment and Engineering Publishing, section on The Politics and Business of Climate Change, August 19th, **2013**
4. Coverage related to chemical dispersants

- a. Featured together with doctoral students and Prof Karl Linden in article published in Chemical and Engineering News describing the use of web tools for the dissemination of work, **2010**
- b. Featured in newspaper article entitled "CU scientists to study fate of oil dispersants in the Gulf". Article published in the Boulder Daily Camera (7/22/10). **2010**
- c. Interviewed live on KOA news radio to discuss work on the fate of chemical dispersants in the Gulf of Mexico. Interview was broadcasted live July 21, 2010 at 7:30 am. **2010**
- d. Interviewed by 7news (local ABC Denver affiliate) to talk about funded project evaluation the fate of chemical dispersants in the Gulf of Mexico. Interviewed was broadcasted on July 22, **2010**.
- e. Featured in newspaper article entitled "CU-Boulder team to study Gulf of Mexico spill chemicals". Article published in the Denver Business Journal (7/22/10) and picked up by other newspapers in the area. **2010**
- f. Interviewed together with Dr. Karl Linden on KGNU station to discuss work with chemical dispersants. **2010**

XIII. Student Recognition

1. Kylie Couch
 - a. Travel Award to attend International Humic Substances Society (IHSS) conference in Bulgaria. Conference to be held September **2018**
2. Amanda Hohner
 - a. Best poster presentation (graduate) at 9th Hydrologic Sciences Symposium, **2014**
 - b. Department of Civil, Environmental and Architectural Engineering Doctoral Assistantship for Excellence Award, **2013**
3. John Meyer
 - a. Best poster presentation (undergraduate) at 9th Hydrologic Sciences Symposium, **2014**
4. Julie Korak
 - a. Department of Civil, Environmental and Architectural Engineering Outstanding Dissertation Award, **2015**
 - b. Travel Award to attend International Humic Substances Society (IHSS) conference in Greece. Conference to be held September **2014**
 - c. Best oral presentation at 9th Hydrologic Sciences Symposium, **2014**
 - d. NSF GRFP, **2011-2014**
5. Stephanie Kover
 - a. NSF GRFP. Awarded **2013**. Funding was declined as student decided to pursue a law degree.
6. Caitlin Glover
 - a. NSF GRF **2011-2015**
7. Simon Mostafa
 - a. EPA STAR **2011-2015**
8. Garrett MacKay
 - a. American Chemical Society Graduate Student Awards in Environmental Chemistry, **2017**
 - b. Department of Civil, Environmental and Architectural Engineering Doctoral Assistantship for Excellence Award, **2014**
 - c. Travel Award to attend International Humic Substances Society (IHSS) conference in China. Conference was held **2012**
 - d. Poster award at IHSS conference, China **2012**
9. Marta Viscut

- a. Department of Civil, Environmental and Architectural Engineering Doctoral Assistantship for Excellence Award, **2015**
- b. American Chemical Society Division of Environmental Chemistry Undergraduate Award, **2015**
