

# SARAH A. SPAULDING

INSTAAR | 4001 Discovery Drive, S207 | Boulder CO 80309  
Tel: 303-492-5361  
Email: sarah.spaulding@colorado.edu

## EDUCATION

Ph.D. Graduate Program in Ecology (1996), Colorado State University, Fort Collins CO. Dissertation: *Algal investigations at varying temporal scales in an extreme environment: McMurdo Dry Valley Lakes, Antarctica.*

M.S. Biology (1991), Colorado State University, Fort Collins CO. Thesis: *Phytoplankton dynamics under ice-cover in a subalpine lake.*

B.A. Biology (1982), University of Colorado, Boulder CO.

## EMPLOYMENT

Ecologist, US Geological Survey, National Water Quality Assessment Program (2010- present)

Ecologist, US Geological Survey, Biological Resources Division (2004 - 2010)

Research Scientist II and Directorate Member, Institute of Arctic and Alpine Research, University of Colorado, Boulder CO (2009 - present)

Research Scientist I, Institute of Arctic and Alpine Research, University of Colorado, Boulder CO (1998 - 2008)

Affiliate Faculty Appointment, Biology Department, Colorado State University (2015 - present).

Adjunct Faculty Appointment, Biology Department, University of Iowa, Ames (2015 - present).

Adjunct Faculty Appointment, Geology Department, University of Colorado, Boulder (2005 - present).

Visiting Assistant Professor, *Ecology and Systematics of Diatoms*, Iowa State University, Iowa Lakeside Laboratory, Milford IA (2000-2009, 2011-2014)

Instructor, *Lake and Stream Ecology*, Mountain Research Station, University of Colorado, Boulder CO (2003)

Research Scientist, Diatom Collection, Department of Invertebrate Zoology and Geology, California Academy of Sciences, San Francisco CA (1998-2001)

Postdoctoral Fellow, Diatom Collection, Department of Invertebrate Zoology and Geology, California Academy of Sciences, San Francisco CA (1996-1998)

## RECENT INVITED LECTURES (2010-2016)

Invited Speaker, Special Session on Advancing Consistency in Ecological Assessments, Society for Freshwater Science, Raleigh NC (2017).

Invited Speaker, Iowa State University Seminar Series, Ames IA (April 2017)

Invited Organizer for Workshop, *Web-based diatom reference sites*, International Diatom Symposium, Québec City, Canada (2016).

Invited Mentor for the Phycological Research Consortium, Milford IA. The mission of the PRC is to provide a professional and collaborative network for phycologists in academic and private sectors (2015).

Invited Speaker, Spaulding, S.A. Moving forward: research and management needs. *Didymosphenia* Conference, Providence, RI (2013).

Guest lecturer and field leader for *Winter Ecology* course, University of Colorado Mountain Research Station (2004-2016).

Invited Speaker, *High elevation lakes in Grand Teton NP: sentinels of environmental change*. Geology Department Seminar Series, Brigham Young University, Provo UT (2013).

Invited Speaker, *High elevation lakes in Grand Teton NP: sentinels of environmental change*. Biology Department Seminar Series, Utah Valley University, Orem UT (2013).

Invited Speaker for AMK Ranch Seminar Series, *High elevation lakes in Grand Teton NP: sentinels of environmental change*. University of Wyoming / National Park Service Field Station, Moose, WY (2012).

Invited Speaker for Workshop, Developing a Bioclimatic Habitat Profile for *Didymosphenia geminata* in Chile, Puerto Montt, Chile (2012).

Guest Lecturer for Applied Ecology, Civil Engineering Department, University of Colorado *Didymosphenia geminata: a diatomic mess or a normal situation?* (2012).

Invited Speaker for American Geophysical Union, Fall Meeting, San Francisco CA, *Approaches for identifying change in the abundance and historical distribution of a freshwater diatom* (2011).

Invited Speaker for special session on nitrogen biogeochemistry, American Chemical Society, Invited Presenter, Denver CO. *Response of sensitive freshwater ecosystems to reactive nitrogen deposition in western North America* (2011).

Invited Speaker for the New York Department of Environmental Conservation for the NY statewide invasive species conference to present, *Didymosphenia geminata: From rare trophy to aquatic affliction* (2011).

Invited Speaker for the National Water Quality Monitoring Council to present, *Developing an online guide to the freshwater diatoms of the United States: scope, process and initial steps*. Pensacola FL (2011).

Invited Speaker for USGS Water Science Day, University of Colorado, Boulder CO to present, *The role of iron in blooms of Didymosphenia geminata* (2010).

Invited Field Expert and Speaker to the Chilean Research Institute, Centro de investigacion en ecosistemas de la Patagonia (CIEP), Coyhaique, CHILE (2010).

Invited Workshop Developer for North American Benthological Society one day course, *Introduction to the freshwater diatom genera: learning to "see" diatoms*. North American Benthological Society Annual Meeting, Santa Fe NM (2010).

Invited Speaker for Special Session on *Didymosphenia geminata*, American Society of Limnology and Oceanography Annual Meeting, Santa Fe NM (2010).

## PROFESSIONAL ACTIVITIES

- Invited diatom ecological expert to advise the Southern California Coastal Water Research program on development of a Biological Condition Gradient tool for assessing streams and rivers across the state of California (2016-2017).
- Editor, book volume in Iconographia Diatomologica series on Diatoms of Antarctica, Koeltz Scientific Books (2016).
- Team leader for the Department of Interior International Assistance Program (ITAP) in Wadi Rum, Jordan. Coordinated DOI and National Park Service staff to provide technical assistance to managers in Wadi Rum Protected Area. Participated in discussions with managers, local guides and staff to 1) Develop a visitor permit system, 2) Design an information center including a search and rescue cache, 3) Outline training programs for desert first aid and technical rescue (2014).
- Mentor for the Promoting Geoscience Research, Education & Success (PROGRESS) program. Currently providing mentorship to Rebecca Gross and involved in community activities. <http://geosciencewomen.org/> (2015-2016).
- Collaborator, National Science Foundation project, McMurdo Dry Valleys Long-Term Ecological Research site. Advise students and collaborate on diatom related projects.
- Organized EPA funded workshop on taxonomy for graduate students and early career taxonomists, held at the Academy of Natural Sciences of Drexel University. The workshop focused on the genus *Craticula*, and resulted in taxon pages posted to the Diatoms of the US online flora (2015).

- Organized EPA funded workshop on taxonomy for graduate students and early career taxonomists, held at the Academy of Natural Sciences of Drexel University. The workshop focused on the genus *Fragilaria*, and resulted in taxon pages posted to the Diatoms of the US online flora (2015).
- Presented *Jordan past and present: a personal story of international assistance* for the INSTAAR Graduate Student Seminar (2015).
- Organized EPA funded workshop on taxonomic consistency in federal, state and tribal biological assessment programs. Invited the Editorial Review Board for Diatoms of the US, web developers and programmers, EPA staff and advisors for 5day workshop hosted at INSTAAR, Boulder CO. The workshop resulted in funding expert content for Diatoms of the US at \$50K per year for 5 years (2014).
- Project leader for a national website/database for freshwater diatoms of the United States. Coordinated support and funding from EPA and USGS to develop the system and funding for contributors to project a tool for consistent diatom taxonomy and accurate biodiversity measures (westerndiatoms.colorado.edu/).
- Invited diatom taxonomic expert for the Taxonomic Fair, Joint Aquatic Sciences Meeting, Portland OR (2014).
- Co-organized panel discussion and workshop, *Taxonomic Consistency for Aquatic Organisms*, for the National Water Quality Monitoring Council annual meeting, Portland OR (2012). As a result of the workshop, a working group was formed to develop recommended standards for consistency.
- Featured in Science News of the Week, (2011) A slimy invader blooms in the rivers of Patagonia, Science 331: 18.
- Invited presenter for North American Benthological Society Workshop, *Introduction to the freshwater diatom genera: learning to “see” diatoms*. NABS Annual Meeting, Santa Fe NM (2010).
- Project leader for an update and expansion for the NSF funded web database for the McMurdo Dry Valleys Long Term Ecological Research Program, *Antarctic Freshwater Diatoms* (huey.colorado.edu/diatoms/about/index.php). The site now includes continental Antarctic sites as well as subantarctic islands. I coordinated efforts by undergraduate students and international collaborators for the update (2010).
- Invited contributor to major book volumes, *The Diatoms: Applications for the Environmental and Earth Sciences*, 2<sup>nd</sup> Edition, E.F. Stoermer and J.P. Smol, (eds), Cambridge University Press (2010), *The Diatoms: Applications for the Environmental and Earth Sciences*, E.F. Stoermer and J.P. Smol, (eds), Cambridge University Press (1998), *Freshwater Algae of North America*, R. Sheath and J. Wehr (eds), Academic Press (2002), and *Natural History of Madagascar* Goodman, S. and Benstead, J. (eds), University of Chicago Press. (2003).
- Project leader for a NSF funded web database for the McMurdo Dry Valleys Long Term Ecological Research Program, *Antarctic Freshwater Diatoms* (huey.colorado.edu/diatoms/about/index.php). The site incorporates diatom taxonomy, nomenclature, reference images, maps, access to samples, and species count data. (2004-2005).
- Played a primary role in obtaining a scanning electron microscope (SEM) for the California Academy of Sciences Research Division. I secured \$140,000 in NSF funding, evaluated and selected a state of the art SEM, supervised installation of the instrument, trained research staff, and hired a SEM operator (1998-2001).
- Coordinated a diverse team of undergraduate students, database specialists, web designers, and scientists to produce and update the California Academy of Sciences Diatom Collection website. The website (www.calacademy.org/research/diatoms/) was featured in the journal *Science* Netwatch (2001 Vol. 293).
- Member of the California Academy of Sciences Gulf of Guinea Expedition. Participated in field work on the equatorial islands of São Tomé and Príncipe as part of an Academy project to compare island distributions among different taxonomic groups (2001).
- Facilitated major acquisitions to the California Academy of Sciences Diatom Collection from J.P. Bradbury (US Geological Survey), B. Thiers (New York Botanical Garden), and D. Davis, (New Mexico Natural Resources Agency) (1998-2001).

## PROFESSIONAL SERVICE

- Serve as a peer reviewer of manuscripts for scientific journals (Antarctic Science, Aquatic Invasions, Bulletin of the Natural History Museum (London), Limnology and Oceanography, Journal of Ecology, Diatom Research, Bibliotheca Diatomologica, Journal of Phycology, Arctic, Alpine and Antarctic Research, Antarctic Science, Phycological Research, Phycologia, European Journal of Phycology, Polish Botanical Journal, Journal of Paleolimnology, Journal of the North American Benthological Society, Cryptogamie Algologie, Phytotaxa, Sedimentary Research, Nova Hedwigia) and for scientific proposals (National Science Foundation, American Association for the Advancement of Science, US EPA, Canadian NERC).
- Organized Taxon Workshop at the Academy of Natural Sciences of Drexel University. The workshop funded by the EPA Office of Science and Technology, with the purpose of bringing young taxonomists together to work in a national herbarium and learn the process of investigating species distributions and verification of historical records (2016).
- Elected to the Council for the International Diatom Society (2016-).
- Associate Editor, Diatom Research (2016-2017).
- Interviewed for pilot podcast for The Nerd Heard by Ryan Vachon (2016) <https://itunes.apple.com/us/podcast/the-nerd-heard/id1171387279?mt=2>
- Interviewed for podcast for Nautilus magazine by Bishop Sand (2016) <https://soundcloud.com/siftpodcast/nautilus-pilot-v1/s-c5HTy>
- Interviewed for public radio station KGNU, Science Friday program by Beth Bennett (2016).
- Hosted USGS / EPA workshop, Biological Indicator Models, at INSTAAR (March 2016).
- Organized Taxon Workshops at the Academy of Natural Sciences of Drexel University. Two workshops were funded by the EPA Office of Science and Technology, with the purpose of bringing young taxonomists together to work in a national herbarium and learn the process of investigating species distributions and verification of historical records (2015).
- Associate Editor for special volume dedicated to the biology and ecology of *Didymosphenia* for the journal Diatom Research (2014).
- Serve as the Chair and member of the Editorial Review Board for the national website/database for freshwater diatoms of the United States (2010-present).
- Serve as a member of the Executive Committee, INSTAAR (2010-present).
- Served on review committee of the Diatom Collection, Frank and Ruth Patrick New Species File, Academy of Natural Sciences of Drexel University (2013).
- Served on the International *Didymosphenia* Conference Committee, Providence, RI (2013).
- Led Discovery Hikes and Microscope Sessions involving graduate students in communicating aquatic biodiversity to the public for the National Geographic / Rocky Mountain National Park BioBlitz (2012).
- Served on the Scientific Programme Committee, International Diatom Symposium, Ghent, Belgium (2012).
- Lead organizer and moderator for Special Panel Discussion on Taxonomy in Water Quality Programs, National Water Quality Monitoring Council Annual Meeting, Portland OR (2012).
- Served on the National Science Foundation Steering Committee for Deep Field Camps, Transantarctic Mountains (2011-2012).
- Served on the National Ecological Observatory Network (NEON) Aquatic Technical Working Group (2011-2016).

- Served on the Editorial Board for the Journal of Phycology (2010-2012).
- Served as the Chair and member of the Research Faculty Ad Hoc Committee, INSTAAR (2009-2010).
- Served as a member of the Scientific Advisory Board to the State of California Water Quality Diatom project (2010).
- Served as a member of the USGS Fort Collins Science Center Scientific Advisory Board. The board is tasked with providing guidance to the center director on issues related to promoting scientific accomplishments by USGS scientists (2010).
- Co-organizer for the USGS Fort Collins Science Center Seminar Series. With support from the Scientific Advisory Board, we invited speakers, scheduled talks, and publicized topics for the academic and agency community (2010).
- Co-editor for special volume of the Proceedings of the Academy of Natural Sciences of Philadelphia. Invited contributed papers for a peer-reviewed volume dedicated to Charles Reimer (2010).
- Established the \$10,000 endowed student fellowship (Reimer Scholarship) at Iowa Lakeside Laboratory using funds from profits of the North American Diatom Symposium. The scholarship will be awarded to a student in the *Ecology and Systematics of Diatoms* course each year, based on merit.
- Co-organizer for the 20th North American Diatom Symposium, Iowa Lakeside Laboratory, Milford Iowa. Obtained commercial and private sponsorship, planned scientific agenda, invited plenary speakers, and awarded student travel stipends (2009).
- Lead organizer for the INSTAAR Seminar Series, University of Colorado. Invited speakers, scheduled talks, and publicized topics for the institute, academic and agency community (2008-2009).
- Provide information to and consult with professionals in academic institutions and government agencies, including the Academy of Natural Sciences of Philadelphia, US Forest Service, US Environmental Protection Agency, US Geological Survey, and National Park Service. (on-going).
- Invited guest lecturer for university courses on stream assessment, limnology and algal ecology (University of Colorado, Colorado School of Mines, CU Mountain Research Station 2004-present).
- Co-organizer for special session at the International Society for Theoretical Limnology (SIL) Meeting and International Workshop on *Didymosphenia*, Montréal Canada. Served as co-editor, with Max Bothwell for meeting proceedings volume published by Oceans and Environment Canada (2007).
- Co-organizer for special session at the American Society of Limnology and Oceanography (ASLO) Meeting, Santa Fe NM (2007).
- Served on Biosecurity New Zealand Technical Advisory Group. Provided expert advice on the response and research program to address the invasion of *Didymosphenia geminata* in New Zealand (2004-2007).
- Lead organizer for a special session at the Western Division American Fisheries Society Annual Meeting. Developed relationship with the Federation of Fly Fishers and other non-profit organizations to secure funding to host a *Didymosphenia geminata* Symposium with invited international speakers (2006).
- Collaborated with EPA, USGS, and volunteer staff to plan and present World Water Monitoring Day. The public open house and discussion was well attended, and included participation by Robbie Roberts, EPA Regional Administrator (2005).
- Organized and presented a Periphyton Workshop, on request from state agencies. The workshop involved 3 day training for state and federal staff on the use of periphyton in monitoring and assessment programs at the University of Colorado Mountain Research Station. Biologists from Colorado, Utah, and Wyoming attended (2005).
- Member of the New Zealand Government Biosecurity Technical Advisory Group. Served as an expert on the diatom *Didymosphenia geminata* and its expansion in biogeographical range and ecological tolerance. (2004 – 2007)

- Member of the Board of Directors, Boulder Creek Watershed Initiative, a non-profit organization dedicated to informing the public about scientific issues that concern communities in the local watershed. Served as writer and editor of the BCWI Newsletter (2003-2005).
- Lead organizer for the 15th North American Diatom Symposium, Pingree Park, Colorado State University. Obtained commercial and private sponsorship, planned scientific agenda, invited plenary speakers, and awarded student travel stipends (1999).
- Initiated the Hanna Student Fellowship at the California Academy of Sciences Diatom Collection, an annual scholarship offered to students working in diatom taxonomy, systematics, ecology, and micropaleontology. The fellowship supports expenses for graduate students to travel to utilize high resolution light and electron microscopes, consult original references, and learn curatorial techniques. (1997-2001).
- Co-chaired special session, Antarctic Dry Valley Ecosystems, American Geophysical Union, Annual Fall Meeting, San Francisco CA (1996).
- Co-organized special session, Life in Extreme Environments, American Society of Limnology and Oceanography Annual Meeting, Reno NV (1995).
- Co-organizer of Women in Science discussion group, a monthly gathering of women with advanced degrees in botany, computer science, ecology, geochemistry, geology and molecular biology (1990-1999).

## GRANT PROPOSALS

Richardson, D., Arscott, D.B., Kan, J., Kunza, L. and Spaulding, S.A. NSF DEB Ecosystem Studies Preproposal, High algal biomass in oligotrophic streams: Using *Didymosphenia geminata* (Dg) to elucidate the effect of alternate stable states on ecosystem function, declined (2016).

McKnight, D.M. and Spaulding, S.A. Algal assessment in rivers and streams. **Award of \$980,800 from US Geological Survey** (2015).

Spaulding, S.A. Developing experts for the Diatoms of the United States, Workshop for students and analysts. **Award of \$10,000 from EPA Office of Science and Technology** (2015).

Richardson, D., Arscott, D.B., Kan, J., Kunza, L. and Spaulding, S.A. NSF DEB Ecosystem Studies Preproposal, High algal biomass in oligotrophic streams: Using *Didymosphenia geminata* (Dg) to elucidate the effect of alternate stable states on ecosystem function, declined (2015).

Spaulding, S.A. Experimental determination of the role of iron on the growth of *Didymosphenia geminata* in the Kootenai River. **Award of \$3,000 from South Dakota School of Mines and Technology** (2015).

Spaulding, S.A. Developing experts for the Diatoms of the United States, Workshop for students and analysts. **Award of \$6,000 from EPA Office of Science and Technology** (2015).

Spaulding, S.A., Kociolek, J.P., Potapova, M. and Edlund, M.B. Collaborative Proposal: Discovering and Documenting Diversity of the Freshwater Diatoms of the United States, NSF DEB Proposal request of \$378,000 declined (2013).

Spaulding, S.A., Kociolek, J.P., Potapova, M. and Edlund, M.B. Discovering and Documenting Diversity of the Freshwater Diatoms of the United States. Preproposal to NSF DEB, **invited for full submission** (2013).

Spaulding, S.A. and Larson, D. Climate change in the alpine zone: A continuous, multi-proxy record of Holocene glacier activity and environmental change at Grand Teton National Park. **Award of \$5,000 from University of Wyoming/National Park Service Field Station.** (2012).

Kociolek, J.P., Spaulding, S.A., Potapova, M. and Edlund, M.B. Discovering Diversity of the Freshwater Diatoms of the United States. Preproposal to NSF, DEB (2012).

Sundareshwar, P.V. et al. Local sustainability in the face of species invasion – four countries impacted by the freshwater diatom – *Didymosphenia geminata*. Preproposal to NSF, PIRE (2011).

Spaulding, S.A., Baron, J. and Wolfe, A. Effects of atmospheric deposition of inorganic nitrogen on high elevation lakes. **Additional award of \$15,000 from National Park Service.** (2011-2012).

Spaulding, S.A., Baron, J. and Wolfe, A. Field Support: effects of atmospheric deposition of inorganic nitrogen on high elevation lakes. **Award of \$5,000 from University of Wyoming-National Park Service Research Station.** (2011).

Sundareshwar, P.V., Druschel, G., Spaulding, S.A. and Pillsbury, R. Collaborative Research: Biogeochemical processes within algal mats of oligotrophic systems. Proposal request of of \$1.2 M from NSF (2012-2014).

Spaulding, S.A., Schweiger, W. and Bunch, F. *Didymosphenia geminata* at the Great Sand Dunes?; Survey and development of monitoring and management strategies for a nuisance alga. Proposal request of \$10,000 to National Park Service.

Spaulding, S.A. and McKnight, D.M. Experimental determination of the role of Fe the growth of *Didymosphenia geminata* in the Kootenai River, Montana, downstream from Libby Dam. **Award of \$25,000 from US Army Corps of Engineers** (2010).

Miller, G., Spaulding, S.A., Neff, J., Anderson, S. and McKnight, D. Acquisition of liquid chromatography and sample preparation instrumentation for enhanced reconstruction of Quaternary environmental change. **Award of \$203,444 from NSF.**

Nemergut, D., Spaulding, S.A. and McKnight, D. Collaborative Research: Stream ecosystem "harshness" and microbial endemism in the McMurdo Dry Valleys. **Award of \$495,308 from NSF** (2009-2012).

Spaulding, S.A., Baron, J. and Wolfe, A. Effects of atmospheric deposition of inorganic nitrogen on high elevation lakes. **Award of \$100,000 from National Park Service.** (2010-2012)

Spaulding, S.A., O'Ney, S., Stone, J.R. and Theriot, E. Historical trends and modern invasions: distinguishing *Didymosphenia* populations in the Rocky Mountains of the western US. **Award of \$193,500 from National Park Service** (2010-2012).

Catton, K., Omur-Ozbek, P. and Spaulding, S.A. IDR: The effect of stratification and predator-prey interactions on the production and transport of geosmin in reservoirs during algal blooms. Proposal request of \$499,701 to NSF.

McKnight, D., Crimaldi, J., Spaulding, S.A. and Pitlick, J. Understanding the hydrologic factors affecting the growth of *Didymosphenia geminata* in rivers and the potential to use environmental flood releases to control future growth. Request of \$366,650 to NSF.

Kociolek et al. A diatom flora of the continental United States. Proposal request of \$1,500,000 submitted to NSF Biological Surveys and Inventories Program (2008)

Spaulding, S.A. Phase II - Populating the web-based identification guide and ecological resource for diatoms. Proposal request of \$227,000 to EPA Office of Water (2008)

Spaulding, S.A., O'Ney, S. and Hermann, K. Visual impacts of stalk forming diatoms in Grand Teton National Park. **Award of \$14,500 from University of Wyoming-National Park Service Research Station.** (2007)

Spaulding, S.A. Taxonomic consistency in biological assessment: developing a web-based identification guide and ecological resource for diatoms of western North America. **Award of \$189,000 from EPA Office of Research and Development.** (2007)

Shuttlesworth, J., Spaulding, S.A. and Edlund, M.B. Integrating monitoring and research of Dickinson County Lakes. **Award of \$15,000 from Okoboji Protective Association.** (2005)

Shuttlesworth, J., Spaulding, S.A. and Edlund, M.B. Seeing the Unseen: Capping Phase I of Lakeside's Center for Diatom Ecology and Systematics. **Award of \$25,000 from the University of Okoboji Foundation.** (2005)

Spaulding, S.A. A Diatom Web Flora: Dickinson County and Beyond. Proposal request of \$5,000 to adapt a database developed with NSF LTER funds to Iowa. **Award of \$5,000 from the Friends of Lakeside Lab.** (1/2005).

Meyer, H. and Spaulding, S.A. Discovering a remarkable record: biodiversity and evolution of diatoms of Florissant National Monument. **Award of \$20,000 from the National Park Service** (11/2002).

Spaulding, S.A. and Krstic, S. Evolution and biodiversity of diatoms in an ancient tectonic basin, Lake Ohrid, Macedonia. **Award of \$4,000, American Association for the Advancement of Science, Travel Grant** (4/2002).

Spaulding, S.A. and McKnight D.M. Freshwater diatoms of the McMurdo Dry Valleys: synthesis of taxonomy, distribution, and ecology. **Award of \$14,500, Long-Term Ecological Research (LTER) Program, Supplemental Grant** (4/2002).

Pulawski, W., S.A. Spaulding, T. Gosliner and J.P. Kociolek. A scanning electron microscope for the California Academy of Sciences. **Award of \$140,000, NSF Multi-users of Biological Equipment Program** (1999).

## AWARDS AND HONORS

- US Geological Survey Achievement Award (2007-2016)
- EPA Ecosystems Protection Program, Region 8, Greater Kudu Nomination (2007)
- US Geological Survey STAR Award for Outstanding Technical Assistance and Outreach (2006)
- Jessup Fellowship, Academy of Natural Sciences of Philadelphia (1995).
- US Geological Survey Achievement Award (1992).
- MacBride Scholarship, Iowa Lakeside Laboratory, University of Iowa (1990).
- E.R. Reed Scholarship in Limnology, Colorado State University (1988).
- Ecological Studies Research Grant, Colorado State University (1988).

## PROFESSIONAL AFFILIATIONS

- International Society of Diatom Research, Member Advisory Council (2008, 2016), Editorial Board (2007-2012), Associate Editor (2013, 2016, 2017)
- Phycological Society of America, Associate Editor Journal of Phycology (2010-2011)

## POST DOCTORAL SUPERVISION

Megan Otu, INSTAAR Postdoctoral Fellow, Effects of atmospheric deposition of inorganic nitrogen on high elevation lakes (2010-2011).

## FULBRIGHT SCHOLAR SUPERVISION

Elena Jovanovska, Visiting Fulbright Fellowship Scholar from Skopje, Macedonia, Stable isotopic records in a 7,000 sediment record from Grand Teton NP:  $\delta^{15}\text{N}$  in diatom frustules (2013-2014).

## STUDENT ADVISORY COMMITTEES

- Nicholas Schulte, Ph.D. student, Environmental Studies Department, University of Colorado. (2016-).
- Meredith Tyree, M.S. student, Environmental Studies Department, University of Colorado. Development of models for assessment of southeast streams of the US (2015-2017).
- Whitney Beck, Ph.D. student, Graduate Degree Program in Ecology, Colorado State University. Understanding reference condition in streams (2015-).
- Isabella Oleksy, Ph.D. student, Graduate Degree Program in Ecology, Colorado State University. Recent environmental change in chlorophytes of Loch Vale, RMNP. (2015-).
- Tyler Kohler, Ph.D., Environmental Studies Department, University of Colorado. Diatoms in Harsh Stream Environments (2012-2015).
- Jaime Haueter, M.S., Department of Atmospheric and Environmental Sciences, South Dakota School of Mines and Technology. Geochemistry of montane streams and diatom interactions (2014-2016).
- Ian Bishop, M.S. Environmental Studies Department, University of Colorado. Population dynamics of *Didymosphenia geminata* (2012-2014).
- Aneliya Sakaeva, M.S. Environmental Studies Department, University of Colorado. Biogeography of diatoms in Antarctic ponds (2012-2014).
- Lee Stanish, Ph.D. Environmental Studies Department, University of Colorado. Ecology and molecular signatures of Antarctic diatoms. (2008-2011).
- James Cullis, Ph.D. Department of Civil Engineering, University of Colorado, Flood releases and shear stress to control growth of *Didymosphenia geminata* (2009-2011).
- Daniel A. James, Ph.D. Wildlife and Fisheries Sciences, South Dakota State University. *Didymosphenia geminata* impacts on fisheries resources (2009-2011)
- Mary Ellen Benson, Ph.D. University of Colorado. Interpretation of Eocene lacustrine history based on freshwater diatoms in the Florissant Formation. (2005-2011).
- Aimee McLaughlin, M.S. Environmental Studies Department, University of Colorado. Spectral responses of organic matter in montane streams. (2009).
- Tizsa Bell, M.S. Environmental Studies Department, University of Colorado. Response of algae to recent environmental change in high elevation lakes (2008-2009).
- Jessica Black, Ph.D., University of Colorado. Paleoclimatic reconstruction in Iceland. (2005-2007) Current postdoctoral fellow at University of Arkansas.
- Nadezhda Slavchova, Ph.D. Portland State University. Assessment of diatoms in streams of the western US. (2004-2006)
- Elizabeth Ruck, M.A., San Francisco State University, Taxonomy and phylogeny of the genus *Surirella* (Bacillariophyceae) (2000-2002). Current doctoral candidate at University of Texas.

## STUDENT MENTORING

- Zachary Little, served as research mentor as part of the Research Experiences in Solid Earth Sciences for Students (RESESS) program on the project, Automated Diatom Analysis Applied to Traditional Light Microscopy: A Proof-of-Concept Study (2017).
- Mentored group of students (Chris Dowdy, Sam Trappen, Dalton Reith) at Florida Polytechnic University, in collaboration with Dr. M. Horton. Provided advice on the project, Nanotechnological innovation using diatoms for solar cell application. (2015-2016).
- Rebecca Gross, Undergraduate Student, University of Colorado, mentorship through the PROGRESS program (2015-2016).
- Hayley Templar, M.S. Student, University of Wisconsin, working on bacterial contamination of drinking water sources (2015-2016).
- Genevieve Gaffigan, Undergraduate EBio, Volunteer intern, working on winter seasonal dynamics of diatoms (2015).
- Josh Darling, Undergraduate Environmental Sciences, Served on Senior Honor's Thesis Committee on project on nutrient enrichment of algal mats in variable flow streams (2014-2015).
- Drew Meyers, Undergraduate EBio, Mentored Drew on variety of lab and field activities (2014-2015).
- Danielle Pite, Laboratory Technician, Project on iron and phosphorus adsorption by algal stalks (2012).
- Danielle Pite, Praxis Internship, major in Chemistry, Smith College MA (2011).
- Violeta Yeni Garcia, University of Northern Colorado, NSF Ph.D. Research Fellowship Awarded in Science and Science Education (2010).
- Sara Fairchild, Environmental Studies Program Internship (2009), University of Colorado, Historical record of diatoms in Lake Vanda, Antarctica.
- Anna Hermann, Research Seminar Student, Boulder High School (2007-2008), majored in Public Health, Tulane University LA
- Kelly Lane, Research Seminar Student, Boulder High School (2007-2008), majored in Biochemistry and Journalism, University of Colorado
- Danielle Pite, Research Seminar Student, Boulder High School (2007-2008), majored in Chemistry, Smith College MA
- Matt Mayernick, National Science Foundation, Research Experience for Undergraduates (REU) Program, University of Colorado. Physiological adaptations in diatoms in extreme environments of the Antarctic Dry Valleys (2003). BA in Biophysics.
- Brenda Moraska, Ph.D. Candidate, Colorado State University, concerning project design, algal identification, and technical implementation of the influence of atmospheric nitrate on algal production (1999-2000).
- Erin Van Matre, M.S. student, University of Colorado, project design, algal identification, and technical implementation of the temporal and spatial dynamics of Antarctic phytoplankton (1999-2000).
- Rhea Esposito, Undergraduate Research Experience, Oberlin College, research techniques in freshwater ecology (1999, 2001).
- Summer Waters, M.S. student, University of Colorado, Paleolimnology of an Alpine Lake in Colorado (1998).
- David Wong, Undergraduate Intern, California Academy of Sciences, Development of Guide to Freshwater Diatom Genera (1997-1998).
