

Curriculum Vitae – Boswell Alan Wing – February 2018

Associate Professor of Geobiology
Department of Geological Sciences
University of Colorado Boulder
Boulder, Colorado 80309 USA

Telephone: (303) 735-6284 (office)
Fax: (303) 492-2606
E-mail: boswell.wing@colorado.edu
WWW www.colorado.edu/geolsci/

Research Interests: I study life on early Earth and in energy-limited environments using techniques from experimental microbial evolution, stable isotope geochemistry, microbiology, metamorphic petrology, and inverse theory.

Education:

2005 PhD Earth and Planetary Sciences, Johns Hopkins University – Thesis title:
Regional patterns of mineralogical and isotopic changes in metamorphic rocks
1998 MA Earth and Planetary Sciences, Johns Hopkins University
1996 AB Earth and Planetary Sciences, cum laude, Harvard College

Employment:

2016 – present Associate Professor, Department of Geological Sciences, University of Colorado Boulder
2014 – 2016 Dawson Chair in Geology Department of Earth and Planetary Sciences, McGill University
2012 – 2016 Associate Professor, Department of Earth and Planetary Sciences, McGill University,
2006 – 2012 Assistant Professor, Department of Earth and Planetary Sciences, McGill University
2001 – 2005 Faculty Research Assistant/Research Associate/Assistant Research Scientist, Earth System Science Interdisciplinary Center and Department of Geology, University of Maryland

Affiliations:

2017 – present Member, Steering Committee, Research Coordination Network for Exploration of Life's Origins
2017 – present Member, Interdisciplinary Quantitative Biology program, University of Colorado Boulder
2016 – present Member, Collaborative for Research in Origins, University of Colorado Boulder
2015 – 2016 Adjunct Associate Professor, University of Western Australia
2014 – 2016 Executive Board/Steering Committee/Researcher, McGill Space Institute
2006 – 2015 Executive Committee/Researcher, GEOTOP Research Center

Honors, Fellowships, Prizes, and Awards:

2018 – present Co-chair (elected) 2020 Gordon Research Conference in Geobiology
2015 Gledden Fellow, Center for Exploration Targeting, University of Western Australia
2014 – 2016 Dawson Chair in Geology, Department of Earth and Planetary Sciences, McGill University
2013 Feinberg Foundation Visiting Fellow, Weizmann Institute of Science
2012 – 2013 Visiting Scholar, Earth and Space Sciences Department, University of Washington
2006 – 2011 Tier 2 Canada Research Chair in Earth System Science (Geochemistry)

Publications (since 2006; advisees - academic in **bold** / research underlined; h_{index} - 27; i10_{index} - 45):

Teaching Experience (since 2006; since 2016 at CU Boulder GEOL):

Classroom:

GEOL 4700-Earth and Planetary Inference (x1)

GEOL 1020-Introduction to Earth History (x1)

GEOL 5280-Aqueous and Environmental Geochemistry (x1)

EPSC 182-Astrobiology (x2)

EPSC 340-Earth and Planetary Inference (x5)

EPSC 396-Research Project in Earth and Planetary Sciences (x11)

EPSC 519-Isotope Geology (x4)
EPSC 550-Isotope Biogeochemistry (x1)
EPSC 550-Microbial Isotope Effects (x1)
EPSC 666-Advances in Earth Science (x5 – participating faculty member)
ESYS 200-Earth System Processes (x5)
ESYS 500-Earth System Applications (x3)
FIGS 196-Freshman Interest Groups (x4)

Field:

GEOL 5700-Planetary Field Geology (x1)
EPSC 341-Field School 3 (x1)
EPS/ESS First-year field trip (x4)
Adams Club annual Fall field trip (x1)

Funding (since 2006; since 2016 at CU Boulder):

2018 Nature, Environment, Science & Technology (NEST) Studio for the Arts - CU Boulder, Three-dimensional printing of Canimalcules for tactile phylogenetic reconstructions for visually-impaired students: \$1,000 [Boswell Wing (CU Boulder) – PI]

2018 – 2020 Agouron Institute - Postdoctoral Fellowship in Geobiology, Carbon isotope fractionation by extant cyanobacteria and physiological analogs of their ancestors: \$140,000, [co-I, Sarah Hurley (CU Boulder) – PI]

2017 – 2019 National Science Foundation-EAR Postdoctoral Fellowship, A new archive of Paleoproterozoic ocean chemistry: the 3.24 Ga Panorama volcanogenic massive sulfide district, Western Australia: \$172,000 [co-I, Benjamin Johnson (CU Boulder) – PI]

2017 – 2019 Center for Dark Energy Biosphere Investigations - Postdoctoral Fellowship, A MEGA Analogue for Subsurface Sedimentary In-Vivo Evolution (MASSIVE) Plate: \$226,540 [co-I, Jesse Colangelo-Lillis (CU Boulder) – PI]

2017 – 2020 NSF Emerging Frontiers under the Joint NASA-NSF Ideas Lab on the “Origins of Life” – Collaborative Research: Biochemical, Genetic, Metabolic and Isotopic Constraints on an Ancient Thiobiosphere: \$549,317 to CU Boulder (\$2,241,606 total) [Boswell Wing (CU Boulder) – PI]

2017 – 2018 NASA Astrobiology Program under the Joint NASA-NSF Ideas Lab on the “Origins of Life” – Understanding Translation through Experimental Evolution: \$152,069 to CU Boulder (\$1,200,000 total) [co-I, Mike Travisano (Minnesota) – PI]

2015 McGill Internal Research Tools and Infrastructure Grant – A custom-built chemostat system for high-precision, high-throughput assays of stable isotope fractionation by microbial populations: CDN \$10,000 per year [100% share]

2014 – 2019 NSERC Discovery Grant – Microbial evolution and the isotopic record of early life - sulfur isotope constraints: CDN \$43,000 per year (CDN \$215,000 total) [100% share]

2012 Natural Sciences and Engineering Research Council of Canada (NSERC) Research Tools and Infrastructure Grant – Ultra high-precision, field-deployable water isotopic

- analyzer for tracing the water cycle at high spatial and temporal resolution: CDN \$118,065 per year [co-I, 10% share; Tom Gleeson (McGill) – PI]
- 2011 - 2012 Department of Energy Joint Genome Institute Community Sequencing Program (US) – Unraveling the Genetic Basis of an Ancient Geochemical Biomarker [co-PI, Eric Collins (UAlaska) – PI, award goes directly to cover sequencing costs]
- 2011 National Science Foundation (US) – Origins, Carriers, and Implications of Mass-Independent Fractionation of Sulfur Isotopes (S-MIF): \$10,200 per year [co-PI; Bill Poirier (Texas Tech) – PI; 0% share, award goes directly to pay meeting costs]
- 2011 Natural Sciences and Engineering Research Council of Canada (NSERC) Research Tools and Infrastructure Grant – Autoclave and multiport injector for removing experimental bottlenecks in microbial isotopic assays: CDN \$23,589 per year [100% share]
- 2010 – 2012 Canadian Space Agency (CSA) Mars Analogue Mission Proposal - Mars Methane Mission, subcontract award of CDN \$5,000 per year (CDN \$10,000 total) [Isotope Geochemistry co-I; Ed Cloutis (U Winnipeg) – PI]
- 2010 Natural Sciences and Engineering Research Council of Canada (NSERC) Research Tools and Infrastructure Grant – Ultralow temperature freezer for archiving microbial evolution experiments: CDN \$12,197 per year [100% share]
- 2010 Natural Sciences and Engineering Research Council of Canada (NSERC) Research Tools and Infrastructure Grant – Portable, low-cost carbon dioxide isotope analyzer for field-based earth science applications: CDN \$72,531 per year [co-I, 20% share; John Stix (McGill) – PI]
- 2009 – 2015 NSERC Collaborative Research and Training Experience (CREATE) Grant – NSERC CREATE Training Program in Canadian Astrobiology: CDN \$149,526 per year for year 1, CDN \$299,992 per year for years 2 through 5, CDN \$297,252 for year 6 (CDN \$1,646,746 total) [co-I, 9% share; Lyle Whyte (McGill) – PI]
- 2009 – 2014 NSERC Discovery Grant – Isotopic Interconnections in the Earth System: \$33,000 per year (CDN \$165,000 total) [100% share]
- 2009 CSA Canadian Astrobiology Research Network – Targeted in-situ cavity ring-down spectroscopy for C isotopic biosignatures: Deployment and validation in Earth's oldest rocks (Nuvvuagittuq Greenstone Belt, N Quebec): CDN \$30,000 per year [100% share]
- 2009 NSERC Research Tools and Infrastructure Grant – A Dual Laser Micro-fluorination System for Total S and O Stable Isotopic Analyses: CDN \$81,087 per year [PI - 20% share]
- 2009 NSERC Research Tools and Infrastructure Grant – Software and hardware upgrades to the JEOL 8900 electron microprobe: CDN \$75,771 per year [co-I, 16% share; Don Baker (McGill) – PI]

- 2006 – 2011 Canada Research Chairs (CRC) Program – Tier 2 CRC in Earth System Science (Geochemistry): CDN \$100,000 per year (CDN \$500,000 total) [100% share]
- 2006 – 2009 NSERC Discovery Grant – Interconnecting the Earth System with Sulfur and Oxygen Multiple Isotopes: CDN \$29,800 per year (CDN \$89,400 total) [100% share]
- 2006 – 2007 Fonds Québécois de la Recherche sur la Nature et les Technologies (FQRNT) Établissement de nouveaux chercheurs – Sur de Nouvelles Contraintes Isotopiques a Notre Compréhension du Cycle Biogéochimique Global du Soufre: CDN \$20,000 per year (CDN \$20,000 total) [100% share]
- 2006 – 2008 CSA Astrobiology Discipline Working Group (Prof. Lyle Whyte, McGill Department of Natural Resource Sciences, and 19 others): CDN \$10,000 per year (CDN \$20,000 total) [0% share, award goes directly to support yearly workshops]
- 2006 Canada Foundation for Innovation CRC-Leaders Opportunity Fund – Acquisition of an ultraprecise state-of-the-art gas source stable isotope-ratio mass spectrometry system to support research in Earth System Geochemistry: CDN \$532,978 total [100% share]
- 2006 FQRNT Établissement de nouveaux chercheurs – Sur de Nouvelles Contraintes Isotopiques a Notre Compréhension du Cycle Biogéochimique Global du Soufre: Equipment Grant: CDN \$35,400 total [100% share]

Invited Presentations (since 2006; since 2016 at CU Boulder):

Research:

- 2018 USGS Rocky Mountain Science Seminar, ‘*Sulfur isotopes distinguish Deccan volcanic eruptions and impact at the Cretaceous–Paleogene boundary*’
- 2018 5th International Symposium on Microbial Sulfur Metabolism in Vienna, ‘*Evolution of control within the dissimilatory sulfate reduction pathway: adaptive predictions and isotopic consequences*’
- 2018 INSTAAR, University of Colorado Boulder, ‘*Primary productivity of the biosphere in deep time*’
- 2018 Gordon Research Conference in Geobiology, Discussion Leader, ‘*Records of Biological Processes in Sediments*’

- 2007 McGill University, *'Future Directions of Research into the Origins of Life'* - A roundtable discussion associated with the Lorne Trottier Public Science Symposium on the Origin of Life

Summary of Broader Service Activities (since 2006; since 2016 at CU Boulder):

I convened a special session on the environmental impact of life at the Astrobiology Science Conference in March 2006, and a session on M³ isotopes (Multiple isotopes of an element, Multiple isotopologues of a molecule, and Multi-elemental isotopes of a compound) at the 2008 Goldschmidt meeting. I convened a Union session on 'Precambrian Environments: Controversial Changes and Paleoproterozoic Milestones' at the Joint Assembly of AGU and GAC/MAC in May 2009, a session on 'Linking Geochemical Tracers and Metabolic Pathways' at the 2009 Goldschmidt meeting, and a session on 'The molecular foundations of geochemical and microbial co-evolution' at the 2012 Goldschmidt meeting. I was a co-convenor of 'Symposium 3. Tectonic processes: a Geoscience Canada symposium to celebrate the career of Andrew Hynes' at the 2014 GAC/MAC annual meeting. I was a team member for Theme 22: Early Earth: Earth's History before the Phanerozoic at the 2015 Goldschmidt meeting, and also convened a session there (08e: The Present is the Key to the Past: Using Modern Approaches to Understand the Early Earth). I serve on the local organizing committee for the 9th International Symposium on Isotopomers (ISI 2018), and was elected co-chair of the Gordon Research Conference in Geobiology in 2020 (chair in 2022).

I have reviewed articles for *Chemical Geology*, *Earth and Planetary Sciences Letters*, *Economic Geology*, *Environmental Chemistry*, *Geology*, *Geochimica et Cosmochimica Acta*, *Geobiology*, *Journal of Geophysical Research – Atmospheres*, *Mineralium Deposita*, *Nature*, *Nature Communications*, *Nature Geoscience*, *Precambrian Research*, *Proceedings of the National Academy of Sciences*, and *Science*, as well as proposals for ACS-Petroleum Research Fund, Canadian Foundation for Innovation, European Research Council, Israel Science Foundation, Mathematics of Information Technology and Complex Systems, NASA-Astrobiology: Exobiology and Evolutionary Biology, NASA-Cosmochemistry, NASA Postdoctoral Fellowship Program NSERC Discovery Grants Program, NSF-EAR: Low-Temperature Geochemistry and Geobiology, and NSF-EAR: Petrology and Geochemistry. Over the last six years, I have provided between 10-15 reviews per year. I have served on four peer review panels for the NASA-Astrobiology: Exobiology and Evolutionary Biology program, one peer review panel for the NASA Astrobiology Institute CAN program, and one peer review panel for NSF-EAR: Low-Temperature Geochemistry and Geobiology program.

I served on the CSA's Canadian Mars Sample Return Analogue Mission Science Definition Team and Astrobiology Working Group in 2009. I co-organized and hosted the first-ever joint NASA-NSF workshop on the origins and carriers of S mass-independent isotope fractionation in June 2011. I was a member of the Canadian Astrobiology Network from 2015-2016, and a co-I on the Canadian Space Agency Space Exploration Topical Team in Astrobiology. In 2017, I served on the Rock-hosted Life working group for the NASA Mars-2020 mission workshop. I am on the Steering Committee for the NASA-NSF Research Coordination Network (RCN) for Exploration of Life's Origins (2017-2023).

At McGill, in addition to routine departmental and university duties, I served on the hiring committees for seven new faculty members in the Department of Earth and Planetary Sciences. I was the EPS representative on the Academic Committee for the Faculty of Science for two years and a member of the Earth System Science Program Committee from 2006 to 2012. I served as director of Graduate Admissions for the EPS department for 2010-2012. I served on the Chair's Advisory Committee for EPS department for three terms, and was the chair of the departmental mentoring committee for untenured faculty from 2014-2016. I was a co-I and deputy director of the NSERC CREATE-sponsored Canadian Astrobiology Training Program (2009-2015), and served on the Executive Board for the McGill Space Institute from 2015-2016. At the University of Colorado Boulder, my major service has included the Executive Committee for the Geological Sciences Department (2016-2017), chairing a Primary Unit Review Committee for promotion and tenure (2017), the Admissions Committee for the Interdisciplinary Quantitative Biology program (2016-present), and the College of Arts and Sciences Strategic Planning Committee (2017-present).

Memberships in Professional Societies:

American Geophysical Union (1998 – present); Mineralogical Society of America (1998 – present); Mineralogical Association of Canada (2006 – 2016; Geological Association of Canada (2008 – 2016); American Society for Microbiology (2014 – present)

Research Advisees (since 2006; since 2016 at CU Boulder):

Undergraduate:

Nader Zaag, Electrical Engineering, (2006)
Hamza Khurshid, Mechanical Engineering, (2006)
Stephanie Mair, EPS, (2006-2007; NSERC USRA)
Robert Gray, EPS, (2006-2007; Honours Thesis)
Mikaella Rough, EPS, (2006-2007) [co-advised w/ Al Mucci]
Benjamin Robledo-Molinares, Physics, (2006-2007)
Alexandre St-Aubin, EPS, (2007; NSERC USRA)
Gilese Turner, Biology, (2007-2008)

Teagan Haggerty, Mathematics and Statistics, (2008)
 Marilyn Rousseau, EPS, (2008)
 Yumi Kitayama, ESS, (2007-2009; Honours Thesis)
 Lorelle Binnion, EPS, (2008-2009) [co-advised with Emilie Thomassot]
 Carlo-Jesse Miozzi, EPS, (2008-2009)
 Kiril Mugerma, EPS, (2008-2009; Honours Thesis),
 Cedrick O'Shaughnessy, EPS, (2008-2009; McGill SURA)
 Lawrence Lau, Anatomy, Cell Biology, (2009)
 Mary McDonough, EPS, (2009)
 Benjamin Webber, Chemistry/EPS, (2009-2011; NSERC USRA; CATP Trainee)
 Lena Gayraud, Biology, (2010; CATP Trainee) [co-advised w/ Jay Nadeau]
 Eric Zhao, Physics/Anatomy, (2010)
 Rebecca Austin, Molecular Biology/French (2010; CATP Trainee)
 Léa Braschi, ESS, (2010-2011)
 Emma Bertran, Biology/EPS (2010-2011; CATP Trainee)
 John Prince, EPS, (2010-2012) [co-advised w/ Rob Rainbird – GSC-Ottawa]
 Ichiko Sugiyama, EPS, (2010) [co-advised w/ Galen Halverson]
 Charles Cohen, Neuroscience, (2010-2011)
 Shu Yang Hu, Environment, (2011-2012)
 Adrien Iredale, EPS, (2011-2012)
 Charles Kosman, EPS, (2011-2012; McGill SURA, CATP Trainee)
 Tess Wagner, ESS, (2012-2013)
 Luke Anderson-Trocmé, Microbiology and Molecular Biotechnology, (2013-2014; NSERC USRA; CATP Trainee)
 Celina Cheung, Anatomy, Cell Biology, (2013-2014)
 Emily Griffiths, EPS (2014-2015; NSERC USRA; CATP Trainee)
 Isabel Fendley, EPS (2014-2015; McGill SURA; CATP Trainee; Honours Thesis)
 Claire Guimond, ESS (2014-2015; Honours Thesis)
 Ying Ran Lin, Microbiology and Molecular Biotechnology (2014-2015; McGill SURA)
 Jyotsana Singh, EPS (2014-2015; CATP Trainee)
 Denny Costa-Cavalho, EPS (2016)
 Johanne Albrigtsen, Ecology and Evolutionary Biology/Molecular, Cellular, and Developmental
 Biology/Biochemistry (2017-present; UROP Summer 2017; Senior Thesis co-supervised with Erin
 Tripp [I am the primary supervisor])

Graduate:

Kathleen Graham (MSc 2007-2009) (co-supervised w/ Don Baker [I was the primary supervisor])
 Elizabeth Sharman (PhD 2007-2011; GSC RAP; Society for Economic Geology Fellowship)
 Mélanie Cousineau (PhD 2009-2013; Ottawa U, NSERC CGS-D, co-supervised with Danielle Fortin [I
 was the primary supervisor])
 André Pellerin (PhD 2009-2014; NSERC CGS-D; CATP PhD Fellow; EPS Trottier Accelerator)
 Thi Hao Bui (PhD 2010-2014)
 Matthew Hryciuk (MSc 2010-2012; GSC RAP; Society for Economic Geology Fellowship; NSERC
 PGS-M)
 Kristyn Rodzinyak (MSc 2010-2012; CATP MSc Fellow; EPS Trottier Accelerator; CSA RAP;
 NSERC PGS-M)
 Gregor Lucic (PhD 2010-2015; co-supervised with John Stix [Stix was the primary supervisor])
 Emma Bertran (MSc 2011-2013; CATP MSc Fellow)
 John Prince (MSc 2012-2014; Carleton U, co-supervised with Rob Rainbird [Rainbird was primary
 supervisor])

Jesse Colangelo-Lillis (PhD 2012-2016, CATP PhD Fellow, co-supervised with Lyle Whyte [I was the primary supervisor])
Louise-Marie Meunier (PhD 2012-2016, co-supervised with Hans Larsson [Larsson was the primary supervisor])
Peter Crockford (PhD 2013-2017, CATP PhD Fellow, NSERC PGS-D, co-supervised with Galen Halverson [I was the primary supervisor])
Ying Ran Lin, (MSc 2016-2017)
Jennifer Reeve (PhD 2017-present)

Post-doctoral:

Emilie Thomassot (2007-2009; Bourse Lavoisier) – now Maître de conférences INPL / Researcher CRPG-Nancy
Clinton Scott (2010-2012; CATP Postdoctoral Fellow) – now Research Scientist at USGS, Reston
Eric Collins (2012) – now Assistant Professor, School of Fisheries and Ocean Sciences, University of Alaska, Fairbanks
Thi Hao Bui (2014-2015) – now laboratory manager and research associate in the Stable Isotope Laboratory in the Department of Earth and Planetary Sciences, McGill University
André Pellerin (2015) – now postdoctoral fellow at the Center for Geomicrobiology, Aarhus University
Jesse Colangelo-Lillis (2016-present; C-DEBI Postdoctoral Fellow)
Sarah Hurley (2017-present; Agouron Postdoctoral Fellow in Geobiology)
Benjamin Johnson (2017-present; NSF EAR Postdoctoral Fellow)
Amanda Bender (2017-present)

Research Associate:

Thi Hao Bui (2009-2010; 2015-2016)
Michelle Campbell (2010; FQRNT MSc Fellowship to attend graduate school at UBC)
Emma Wall (2012)
Paul Tomascak (2012)
John Prince (2013-2014)
Yiming Guo (2014-2015)
Jody Donelley (2017-2018; co-supervised with Sebastian Kopf)
Nabil Chaudhry (2017-present; co-supervised with Sebastian Kopf)

Research Visitors:

Eric Collins (2010-2012) [McMaster U, Origins Institute, Origins Postdoctoral Fellow]
Long Li (2010-2012) [U Toronto, Geology, CATP Postdoctoral Fellow]
Nadia Mykytczuk (2010-2012) [McGill, Natural Resource Sciences, CATP Postdoctoral Fellow]
Russel Hiebert (2010-2014) [U Manitoba, Geology, PhD Student]
Carissa Isaac (2011-2013) [Centre for Exploration Targeting, U Western Australia, PhD student]
Bulusu Sreenivas (2012-2013) [National Geophysical Research Institute, Hyderabad]
Simone Sauer (2013-2014) [Geological Survey of Norway, PhD Student]
Antoine Crémière (2013-2015) [Geological Survey of Norway, Postdoctoral Fellow]
Benjamin Eickmann (2013-2015) [U Johannesburg, Postdoctoral Fellow]
Bruce Taylor (2013-2016) [Geological Survey of Canada, Ottawa]
David Au Yang (2014-2016) [UQAM, IPGP, PhD Student]
Patrick Beaudry (2014-2015) [Queens College-CUNY, MSc Student]
Vikraman Selvaraja, (2014-2016) [Exploration Targeting, U Western Australia, PhD student]
Crystal LaFlamme (2015-2016) [Exploration Targeting, U Western Australia, Postdoctoral Fellow]
Kärt Paiste (2015-2016) [Geological Survey of Norway, PhD Student]
Annemiek Waajen (2015-2016) [U Amsterdam, Undergraduate research trainee]
Yuyan Zhao (2016) [Department of Geochemistry, Jilin University, Associate Prof]

Claire Jasper (2017) [Boston College, Undergraduate research trainee]
Stephanie Plaza-Torres (2017) [UPR-Mayaguez, CU Boulder SMART program, co-supervised with
Karen Chin and Brett Davidheiser-Kroll]

External:

Tonggang Zhang (2007-2010) [UQAM PhD committee]
Geoffrey Baldwin (2010) [Laurentian U MSc thesis examiner]
Galen MacNamara (2011) [Laurentian U MSc thesis examiner]
Emily Bamforth (2011-2013) [McGill Redpath Museum PhD committee]
Stefan Markovic (2014) [U Toronto MSc thesis examiner]
David Au Yang (2014-2017) [UQAM, IPGP, PhD committee]
Kärt Paiste (2016-present) [U Trømsø, PhD committee]

Refereed conference proceedings (\approx 10-20 per year for the last 6 years, list available on request)
