- PSE797 KK: *Wetting, Capillarity and Liquid Interfaces* is a 1-credit course that I developed and taught in Spring 2008. Elements of the course related to surface energy and wetting of polymers

were combined with new course material I developed on characterization and mechanics of thin films, and incorporated into PSE 797PI: *Polymer Interfaces and Thin Films* (co-taught with Al Crosby in Spring 2010 and Fall 2013).

- PSE 797NN: *Introduction to Scientific Teaching* is a course that I developed with Dr. Mathew Ouellett, Director of the UMass Center for Teaching, and taught in Spring 2009, Fall 2010, and Fall 2012.

To the University - at UMass Amherst:

1. Materials Research Science and Engineering Center (MRSEC): Associate Director for Education and Diversity (2009 – 2014), faculty participant (2006-2014), annual symposium co-organizer (2007). The Center coordinated collaborative polymer research efforts on campus under a multi-investigator NSF grant. Our group conducts research on instabilities of polymer interfaces and assembly of polymer/nanoparticle hybrid materials. In May, 2007 I co-organized the Center’s annual symposium on “Active Surfaces”. From 2009-2014 I oversaw the education, outreach, and diversity efforts of the Center, a role which continued through the PSE department from 2014 - 2019..
2. Center for UMass-Industry Research on Polymers (CUMIRP): Co-Leader of Cluster N (2010-2019), faculty participant (2006-2019), Poster Session organizer (2006-2007). This center coordinates interactions and research agreements between the University and industrial partners. I participated in the on-campus reviews held twice annually, and organized the fall poster session in 2006 and 2007. From 2010-2019, I served as Co-Leader of Cluster N, focused on Nanotechnology.
3. Northeast Alliance for Graduate Education and the Professoriate and UMass STEM Diversity Institute: participant (2006 – 2017), Diversity Team member (2007-2008). UMass was the central campus for an NSF-sponsored alliance focused on increasing involvement of under-represented minorities in the sciences. I participated in panels and gave tours during on-campus recruiting events, and traveled to off-campus events each year, including the

HBCU-undergraduate research conference, the New York Louis Stokes Alliance for Minority Participation, and meetings at Northeast Alliance partner schools including University of Puerto Rico Mayaguez and Bennett College.

4. Energy Frontier Research Center (EFRC): faculty participant (2009-2015), Member of Facility Director Search Committee (2009-2010). The EFRC was a DOE-funded center focused on polymer-based materials for harvesting solar energy. I served on a search committee that resulted in the hiring of Dr. Volodymyr Duzhko to direct the EFRC facilities.
5. Invited Panelist, Workshop on New Faculty Funding, UMass Office of Research Development, 12/2/11
